DIRECT FROM GROWER TO YOU!

These Rows $\frac{1}{4}$ Mile Long—100,000 Peach Trees in This Block

We Own and Operate 400 Acres

WE GROW OUR OWN STOCK

So in ordering from **Neosho Nurseries Company** you are getting your trees and plants direct from the grower. We own and cultivate 400 acres of Missouri's most fertile land especially suited for producing strong, vigorous, healthy root systems. The following figures will give you a better picture of our extensive operations.

100,000 Peach	10,000 Pear and Plum
20,000 Cherry	250,000 Berries
100,000 Grapes	100,000 Evergreens
250,000 Shrubs	10,000 Shade Trees
60,000 Apple	

The **Neosho Nurseries** are not only one of the largest growers of nursery stock in the United States, but we offer the widest assortment of **new** and **improved** varieties from which you may make your choice, with thousands of specimens of each item.

We maintain vitality and vigorous conditions by transporting all trees and plants from field to storage in enclosed, covered, air-tight trucks especially constructed for this purpose.

Our storage at Neosho is the largest nursery storage in this part of the country, and temperature is controlled with an air-conditioning system.

We maintain a trial grounds and test orchard for testing new varieties to find if they are suitable to soil and climatic conditions, to determine if they are hardy, productive and resistant to disease before offering them to our customers.

Our office and packing house at Neosho covers 37,000 sq. ft. At Newtonia, 11 miles east of Neosho, where most of our Hagerstown silt loam land is suited, we have many buildings, including a concrete storage house where the stock is graded and sorted without exposure to drying sun or wind.

25 YEARS OF SERVICE

Joe Williams—In charge budding and grafting.

Oren Williams—In charge propagating.

Floyd Kritz—In charge entire 400 acres growing operations.

Hurley Kritz—In charge storage and shipping.

Peachie Ransom—In charge stock records.

M. Vaughn Woodard—In charge landscape and sales department.

G. B. Williams, Sec'y-Treas.—In charge office management.

A. E. Weston, President and Gen. Mgr.

All of above have had more than 25 years service with the Company and experience in rendering "growing satisfaction."

Neosho Nurseries Owned by Employees

The **Neosho Nurseries Company** is owned by the employees who operate it. Not only our President, A. E. Weston, but those in charge of every department are directly interested in your success and making future friends and customers for **Neosho Nurseries**.

ASPARAGUS

Asparagus is among the most welcome of the early spring vegetables, and deserves a place in every garden. Plant Neosho roots, and be sure of the finest vegetables for your own table or for sale. Don't forget Neosho's direct-from-grower-to-you prices save you money. Order these early spring vegetables in plenty of time for planting!

MARY WASHINGTON. The best asparagus whether for home use or market. This variety was developed by U. S. Department of Agriculture and is rust resistant. It is earlier, stalks are larger, more tender, more productive than any other variety.

	12	25	100
Heavy	\$0.35	\$0.60	\$1.95
Jumbo	.50	1.65	2.95

GOOSEBERRIES

DOWNING. The most widely grown variety; medium to large; pale green; excellent for home use and quite profitable for market. Vigorous, and very productive; rarely attacked by mildew and notably resistant to aphids.

2-year, No. 1, each 55c; 3 for \$1.45.

Mary Washington Asparagus

NEOSHO GUARANTEE

1. **True to name** stock is our unqualified guarantee. We will replace without charge, or refund purchase price if any proves otherwise.

2. "Yours for Growing Satisfaction" is our slogan. Hence **we guarantee highest quality** and arrival in good condition. Examine shipment carefully on arrival. Any complaints made within ten days will be cheerfully adjusted to your satisfaction. We will either refund purchase price or replace stock, as you prefer.

3rd. Despite every precaution in shipping, handling and planting, there are occasional losses, even with the best of stock, over which none of us have any control. Hence we offer to help you by sharing your loss. We will replace at one-half price any stock that fails to grow, if you will **report by July 1st** following planting.

CONVENIENT TERMS

All orders, unless otherwise specified in catalog, are f. o. b. Neosho.

Terms: Payment in full should accompany all orders. Due to war conditions C. O. D.'s are out for the duration. Shortage of labor necessitates this, as C. O. D. shipments require triple the amount of time to handle. However, on orders of \$10.00 or more, customer may send 10% with order, balance before shipment, or C. O. D. if preferred. All orders 10 to 100 lbs. will be shipped by Express collect for transportation, unless you advise you are on Rural Route and prefer Parcel Post. In such case, we will pay postage and send you a postal advising amount of postage due, which you can forward.

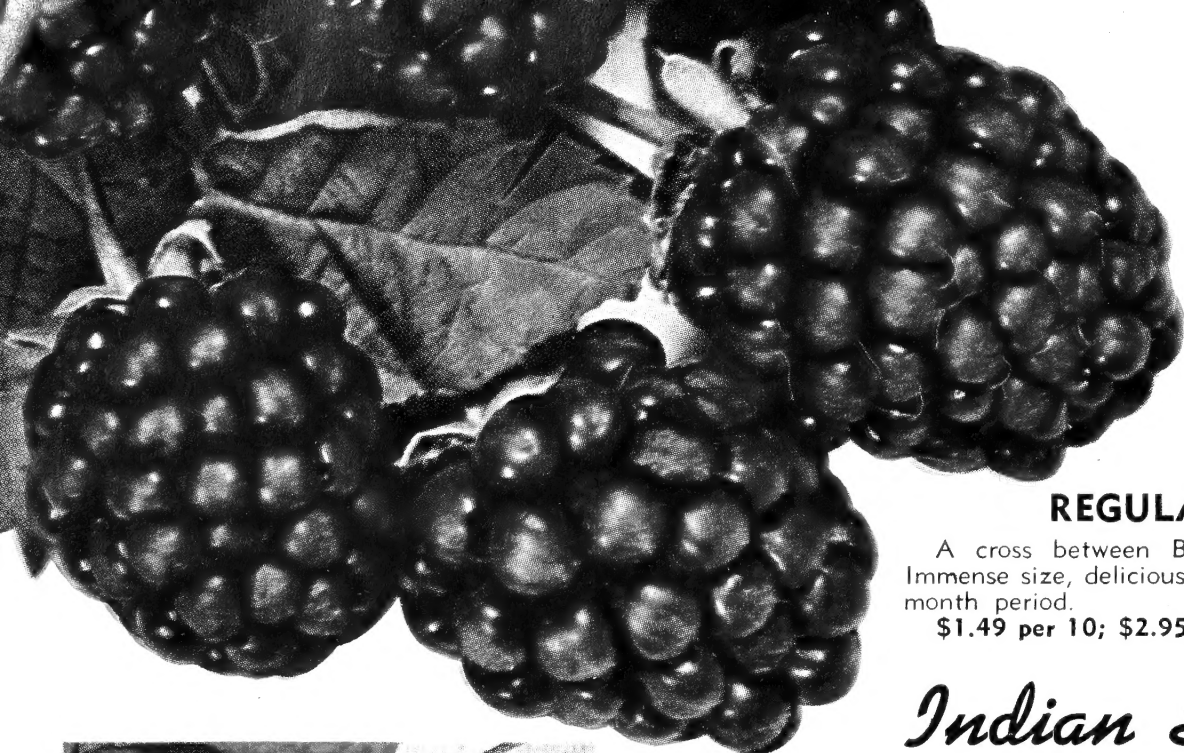

SALES TAX

The Missouri law requires us to collect 2% Sales Tax from all Missouri customers. Please add this amount to your order, if you live in Missouri.

Thornless

BOYSENBERRY

Same immense size and delicious flavor as the thorny variety, but no thorns. Easy to pick these big juicy berries. Wonderful to serve fresh, in pies or canned. Plant in the spring and the next year you should have a bumper crop.

3 for 75c; 5 for \$1.35; 10 for \$2.25.

REGULAR BOYSENBERRY

A cross between Blackberry, Raspberry and Loganberry. Immense size, delicious flavor, heavy bearer. Ripens over two-month period.

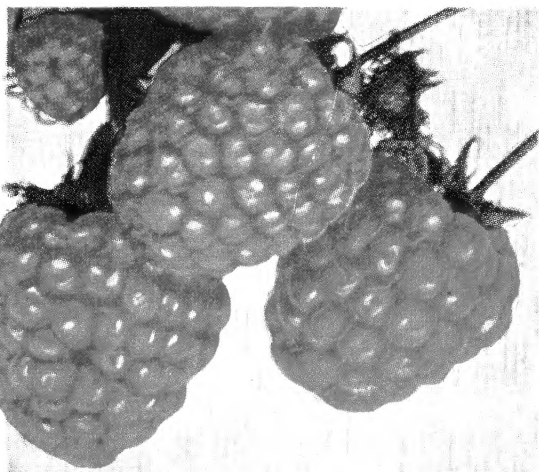

\$1.49 per 10; \$2.95 per 25; \$5.50 per 50; \$9.95 per 100.

Indian Summer

EVERBEARING RED RASPBERRY

Introduced by New York Experiment Station, it is proving more satisfactory each year as it fruits over wider areas. Many are planting Indian Summer as a one-crop variety because of its vigor, large size, fine-flavored berries and ripening before Chief. Berries are much larger than other everbearing types and of excellent quality. The summer crop ripens very early, the autumn crop from September until frost.

4 for 60c; 10 for \$1.35; 25 for \$2.70.

Indian Summer

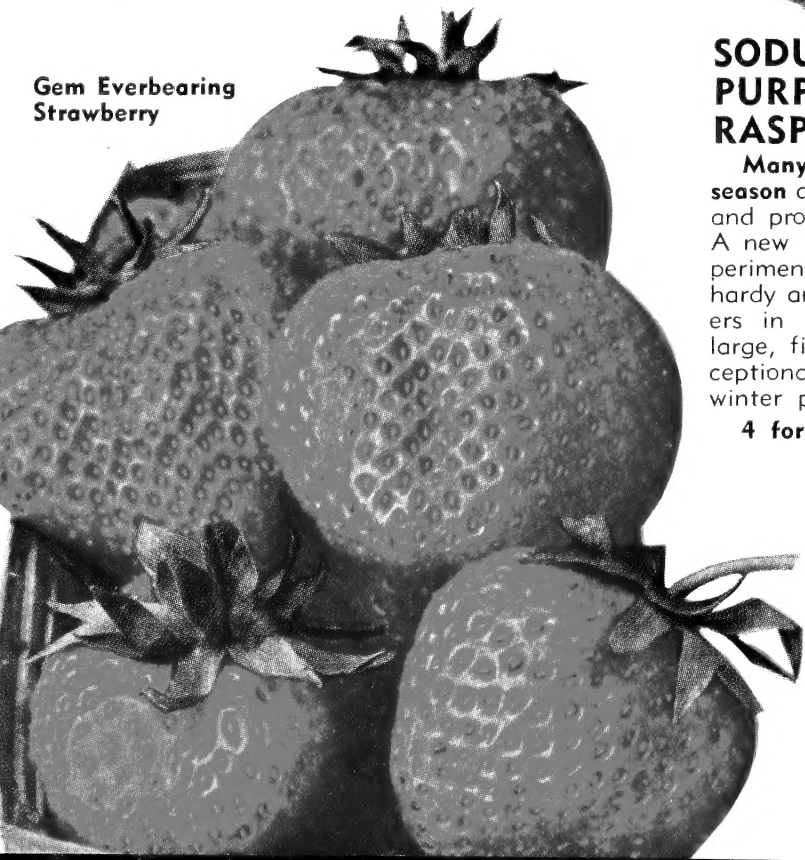

GIANT GEM

Everbearing Strawberry

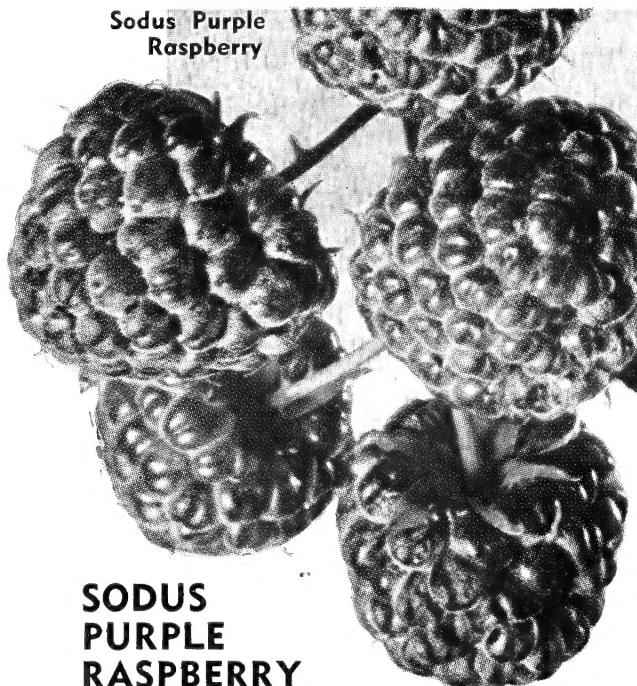

By its outstanding performance, Giant Gem is now the leading Everbearing Strawberry. Very productive. Bright red berries are large, good quality and ripen evenly. They will bear this summer, 90 days after planting. Next year, they will bear spring, summer and fall. **For spring shipment only.**

25 for \$1.00; 50 for \$1.75; 100 for \$3.25.

Gem Everbearing Strawberry

Sodus Purple Raspberry

SODUS PURPLE RASPBERRY

Many new canes will produce fruit the first season and is proving to be the most dependable and profitable of all Purplecaps or Blackcaps. A new Purplecap originated by New York Experiment Station. It is extremely vigorous, hardy and drought resistant. Surpasses all others in production and cane growth. Berries large, firm, excellent quality. Sodus is an exceptionally heavy producer. Does not require winter protection in Minnesota.

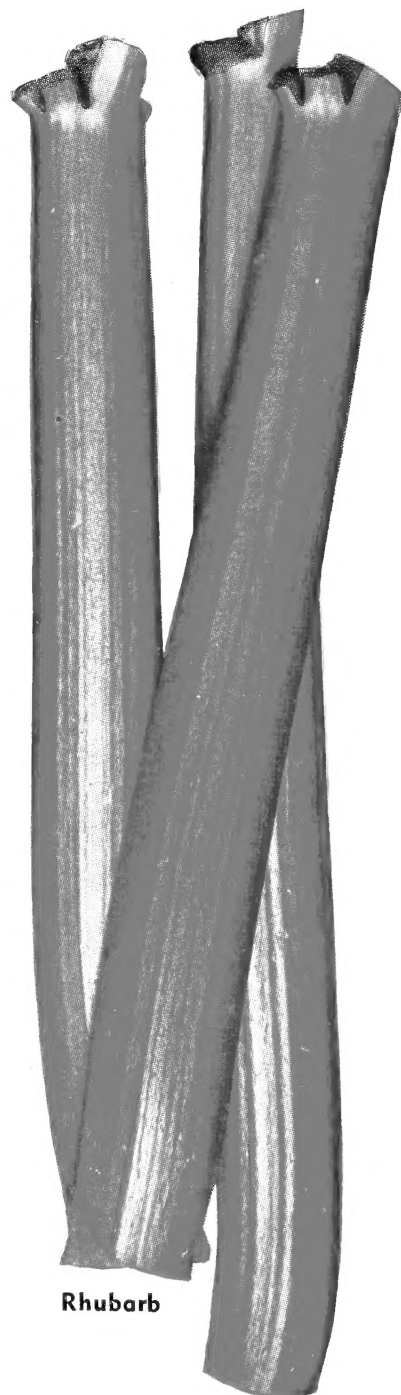

4 for 60c; 10 for \$1.35; 25 for \$2.70.

SPRING ONLY.

RHUBARB

MYATT'S LINNAEUS. Our roots are grown from Myatt's Linnaeus seed—a large, tender pink variety.

1 in.90	1.45

Rhubarb

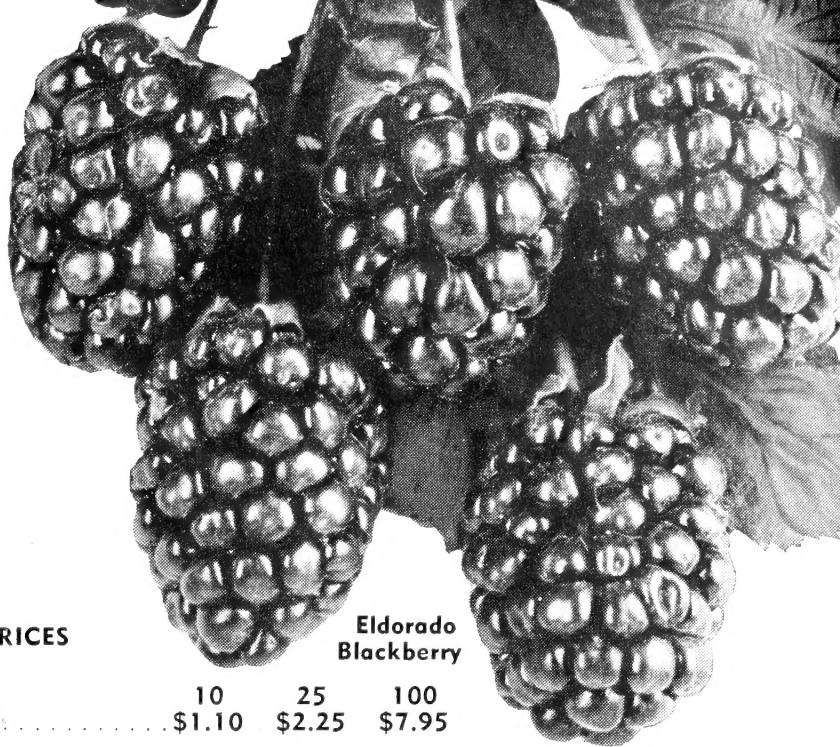

BLACKBERRIES

ALFRED BLACKBERRY. One of the finest of all early blackberries. Very productive, superior in quality, berries very large and practically free from seed. Very juicy. Plant is a thrifty grower, extremely hardy and bears young.

EARLY HARVEST. (Early.) Glossy black, medium size, good quality, not very hardy, requiring protection in the north.

ELDORADO. (Late.) Thrives on poor soil better than other varieties. Extra firm, sweet full flavored berries.

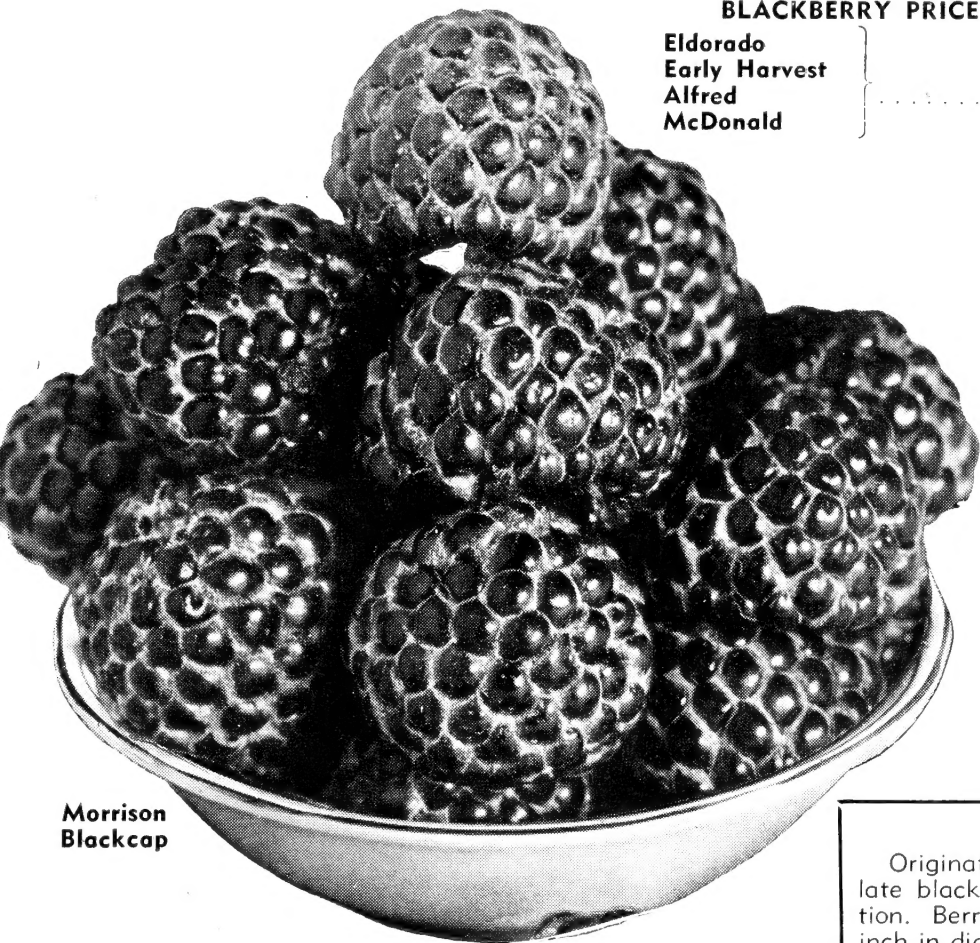

MCDONALD. (Very Early.) A blackberry-dewberry hybrid. It is large, oblong, very good quality; drought-resistant, vigorous grower; plant in rows 8 to 10 feet apart. The vine trails on the ground the first season like the dewberry, but grows upright the next year. Grown in Missouri, Oklahoma and Texas. Not hardy and is self-sterile. Plant every fourth row with Lucretia Dewberry or Early Harvest to develop good berries.

CHIEF. (Red.) Latest and best addition to Red Raspberry varieties. Might well be called Early Latham; has all Latham's good qualities plus the advantage of ripening ten days earlier, yielding heavier and of much better flavor and shipping qualities.

CUMBERLAND. (Black.) (Midseason.) The most widely planted black raspberry because of its productiveness and quality. Berries are extra large, fine and sweet. 1 yr., spring only.

CUTHBERT. (Red.) (Late.) The best red because of its superior quality and flavor. Berries are large, rich crimson, firm and one of the best for canning.

LATHAM. Rich brilliant red, large and firm berry. Perfectly hardy, very heavy producer and most resistant to Mosaic. Originated in Minnesota.

MORRISON BLACK RASPBERRY

Originated in northern Ohio, pronounced the most promising late black raspberry being tested at New York Experiment Station. Berries extremely large, many measuring over three-fourths inch in diameter, and do not crumble. A little later than Cumberland, fine dark glossy color, berries hold up well after picking; exceptionally good quality.

4 for 60c; 10 for \$1.35; 25 for \$2.70.

STRAWBERRIES

AROMA. (Midseason to Late.) The favored mid-season shipping berry which has made the Ozarks famous as producers of the world's finest berries. Large, firm, delicious berries which stand shipping extra well.

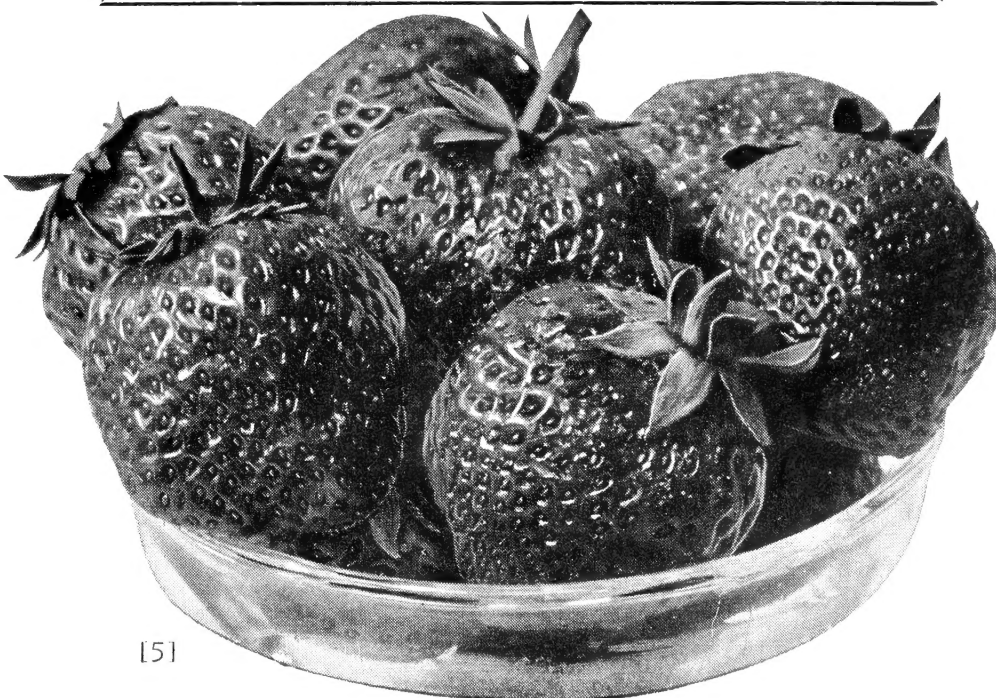

BLAKEMORE. Extra early, bright red berry. Highly flavored and a tremendous yield; self-pollenizing. A heavy plant maker. Easy to develop a full, wide row the first season. Fine for quick freezing storage.

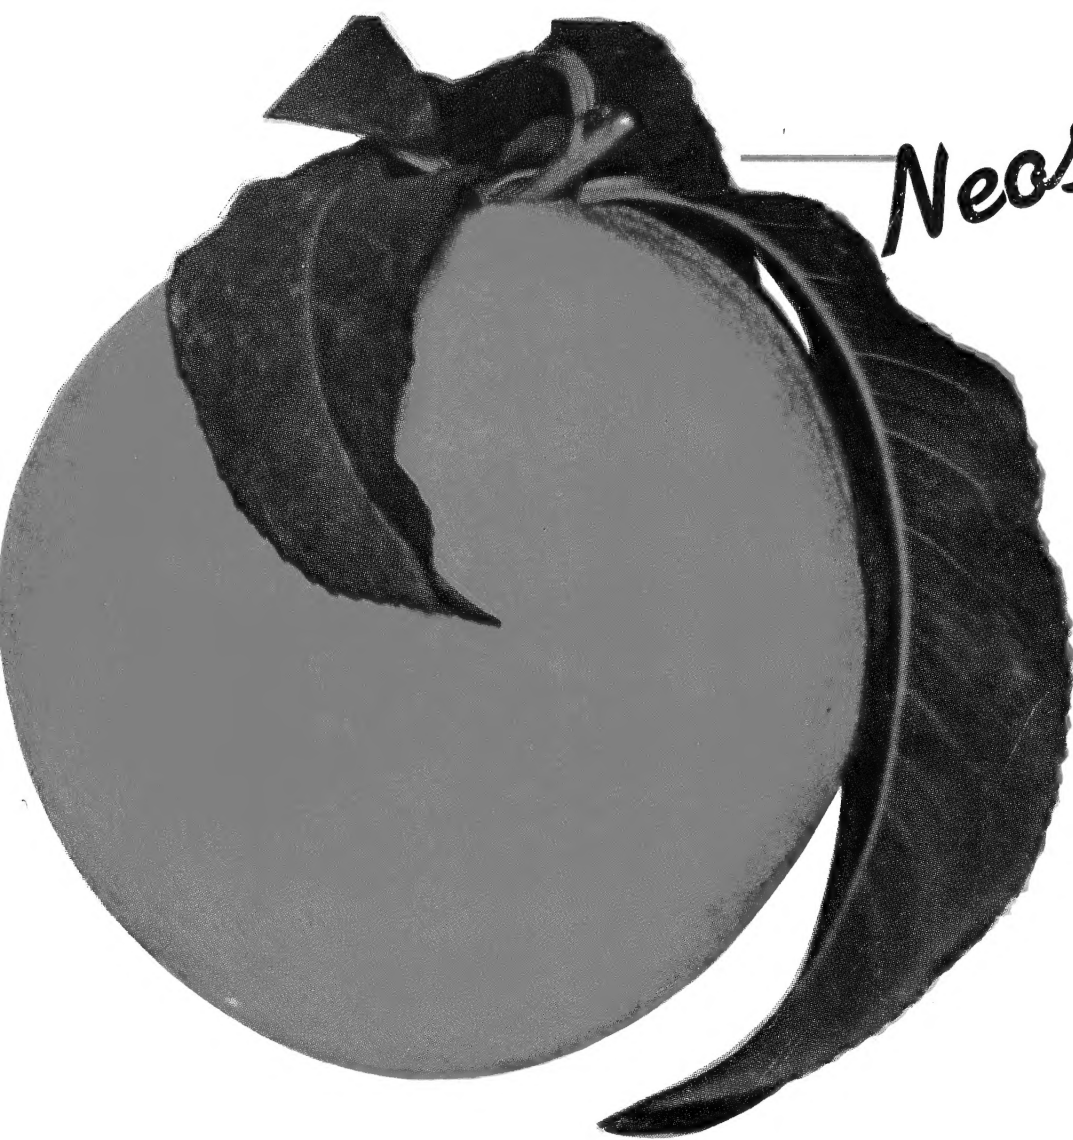

DORSETT. A bright flaming red berry that fairly sparkles its rich, tempting goodness. Marvelous quality and beauty. Wonderful producer and plant maker. Splendid shipper.

SENATOR DUNLAP. A very popular berry noted for dependability and productiveness. A medium sized, deep glossy red berry of rich, sweet flavor and very good quality.

Strawberries for Spring Shipment Only.

Neosho's IMPROVED

New and improved varieties of Peaches have been the biggest forward step in the nursery business. Improved quality and appearance means ready sale at higher prices. Improved hardiness means heavy crops year after year. Plant new and improved varieties for greater profits. There is always a heavy demand for our improved varieties, so please send in your orders early. We do not like to disappoint any of our customers.

NEOSHO EARLY ELBERTA

Our **own special strain** of Early Elberta that we have fruited for years. Ripens 5 days ahead of Elberta. A smooth-skinned Peach, yellow background with bright crimson blush. Much better flavor than regular Elberta and of good size. Brings top prices on every market.

FAIRS BEAUTY

Hardiness, great beauty, high quality recommend this Peach for most all sections. Unrivaled as an early canning variety. An early Peach following Golden Jubilee three to five days. Tree vigorous, spreading, very hardy in bud, often producing a crop when other varieties are winter-killed. Fruit is medium to large in size, skin a deep golden yellow blushed with bright red, the flesh is firm, tender, melting and juicy. Freestone, clinging slightly when the Peach is hard ripe. An excellent market and canning Peach which is adapted to both commercial and home use. The Fairs Beauty originated near Tyler, Texas, and in trial planting shows its adaptability to central and eastern growing conditions.

Exeter, Mo.,
April 10, 1943.

Thirteen years ago I purchased from you 60 Belle of Georgia peach trees at a cost of \$18.00. I have kept accurate records on these trees during these past thirteen years and have harvested \$3,157.00 worth of fruit off of them.

A. L. WALKER.

Alton

Hale-Haven

PEACH VARIETIES

Super X Grade, Super Size Trees Make Quick Growth, Bear Early, Produce Heavy Crops

NEOSHO HALE

(Yellow Freestone.) (Midseason.) Very large in size; beautiful yellow overlaid with red, and has a firm, fine-grained, yellow flesh of good quality. It colors up a week before maturity. Ripens 3 to 7 days ahead of Elberta.

HALE-HAVEN

A magnificent cross between the wonderful quality of J. H. Hale and the hardiness of South Haven. Originated at Michigan Experiment Station. A most **desirable commercial variety**, steadily gaining favor because of wonderful size, color and shipping qualities, hardiness of bud and vigor of tree. A profit-making variety you cannot afford to overlook.

GOLDEN JUBILEE

A beautiful yellow freestone Peach ripening 25 days ahead of Elberta. Good size and quality. Originated by New Jersey Experiment Station. **One of the best shippers** of the early Peaches. Tree vigorous, blooms later and is hardier than most other varieties. Why not try a few Golden Jubilee trees this year . . . raise these hardy, yellow freestone Peaches that ripen 25 days ahead of Elbertas.

ALTON

This Peach in our own orchard has proven one of the hardiest, most profitable of the Belle of Georgia type, ripening about half way between Red Bird and Elberta. It is a semi-cling, white Peach with beautiful red blush. **You'll have a crop of Altons whenever seedlings bear.** Ripens about July 15th. The tree is strong, stocky, good grower, well-branched, and it is an extremely good, regular bearer. All in all, the Alton is a money-maker for the farm or home.

FRANKS

This Peach highly recommended by Missouri Experimental Station, has proven hardiest and most profitable Peach on their grounds. Fine flavored, large yellow cling covered with red; ripening 5th of September. Clings always make good market Peaches. The fruit is beautifully blushed, firm, rich, most delicious in flavor. You will find the Franks a very superior Peach because of its great size, beautiful color, high quality, and high production.

MIKADO

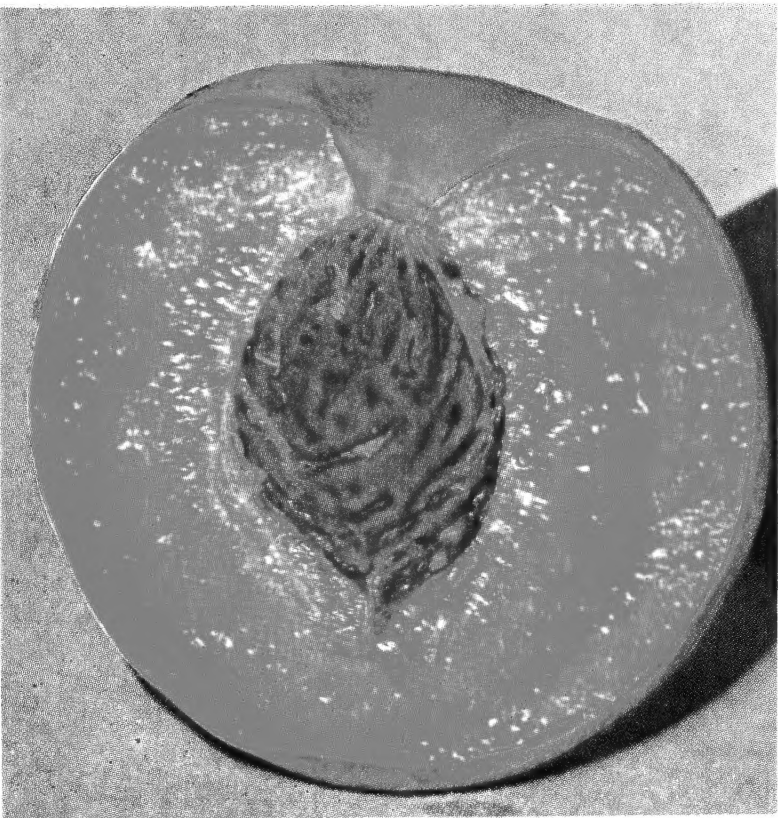

The earliest yellow Peach of real quality and flavor. Ripens July 1st. Extra large, shaped and colored like Elberta. Very hardy in bud and a heavy producer. **Brings highest prices** on the early market. Cling.

RED GAGE ELBERTA

A wonderful improved bud sport of the Elberta Peach which we can recommend most highly. Ripens two to three days after Elberta. Is of wonderful size and improved color. Most outstanding feature of this Peach is its **resistance to disease** and hardiness in bud; crops every season.

IMPROVED LATE CRAWFORD

Ours is a special strain of the wonderful Crawford Peach; better in quality, hardier in tree and surer in bearing than regular Late Crawford. About 10 days after Elberta.

BELLE OF GEORGIA

(White Freestone.) (Midseason.) An unusually handsome large Peach. Creamy white blushed with red; good quality. A favorite with commercial growers. Very hardy, vigorous and productive. Ripens August 1st.

CHAMPION

(White Freestone.) (Midseason.) An exceptionally high quality, attractive, hardy white Peach. It has a peculiar honeyed sweetness; ideal for home use and local markets. Ripens August 1st.

ELBERTA

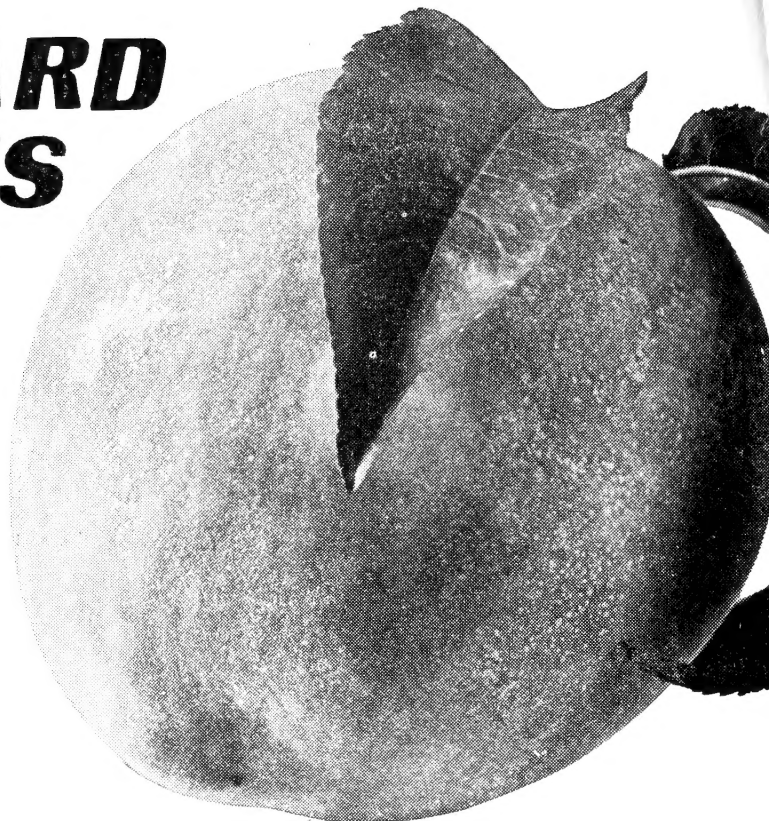

(Yellow Freestone.) (Midseason.) The most widely planted commercial Peach. Very large, golden yellow. Tree is very productive, yielding large quantities of uniform, highly colored fruit. Ripens August 10th.

LATE CRAWFORD

(Yellow Freestone.) (Late.) High quality, scarcely equalled in richness of flavor. Adaptable to a wide range of soil and climate. Ripens August 18th.

SUPERB NEOSHO HALE PEACHES at their best as grown by Geo. Edrington, Osceola, Arkansas. Many specimens measured nearly 4 inches in diameter. That's less than a dozen peaches to the yard. Mr. Edrington has 500 trees, some of which produced 10 bushels to the tree this year (1943), and with peaches selling from \$6.00 to \$8.00 per bushel that makes a pretty fair income per acre.

ROCHESTER

(Yellow Freestone.) Large, with very sweet, delicious flavor. Keeps and ships well. Strong grower, hardy; bears young and regularly. Ripens July 25th.

LATE ELBERTA

(Yellow Freestone.) A large yellow Peach with red cheek, of Elberta type, ripening last of August, extending the Elberta season twenty days.

ELBERTA CLING

(Yellow Clingstone.) (Midseason.) The best yellow clingstone; especially fine for canning, preserving and pickling; large, yellow, round. Ripens August 15th.

J. H. HALE

(Yellow Freestone.) (Midseason.) Very large in size; beautiful yellow overlaid with red, and has a firm, fine-grained, yellow flesh of good quality. It colors up a week before maturity. Ripens 3 to 7 days ahead of Elberta.

INDIAN BLOOD

(Clingstone.) (Late.) An old-fashioned favorite of fine flavor. Flesh is blood-red color.

HEATH CLING

(White Clingstone.) (Very late.) Best to preserve or pickle whole. Exceptionally good keeper. Ripens September 20th.

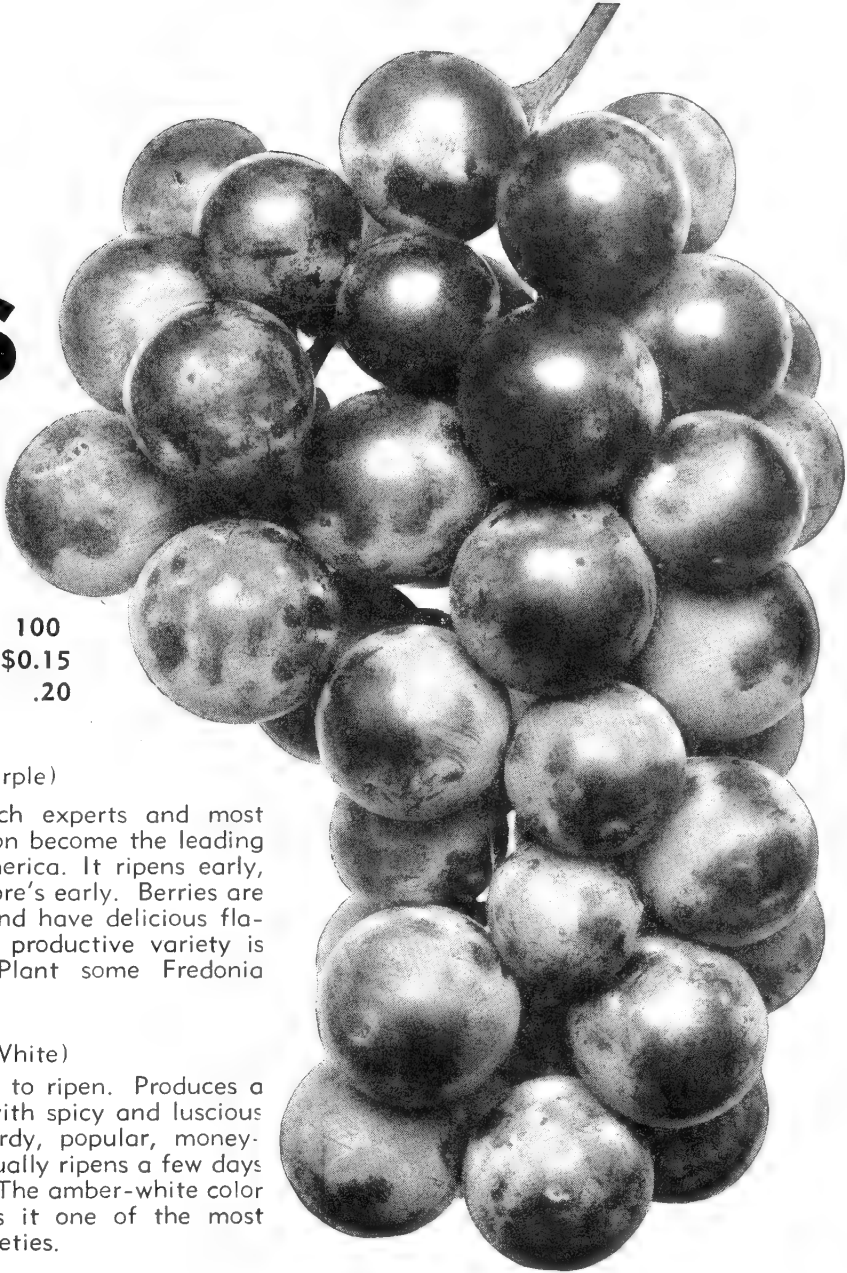

KRUMMEL

(Yellow Freestone.) (Very late.) A large Peach, one side a little larger than the other. A rich golden yellow blushed with carmine. Good quality. A good keeper and shipper. Ripens September 10th.

RED BIRD

(Semi-Clingstone.) An unusually large, early, commercial variety. Very firm and ships well. Creamy white covered with bright red; a most handsome Peach. Ripens July 1st.

Sturdy - Vigorous *Neosho* GRAPE VINES

All of these fruits are excellent when eaten fresh, and are fine for making jams, jellies, and preserves, and for canning or drying. The varieties below—at Neosho's low direct-from grower-to-you prices—give you a wide choice among the most popular and successful kinds. And, as always, you can depend on Neosho vines to give you "growing satisfaction."

Caco		Each	5	25	100
Portland					
Fredonia	1-year	\$0.30	\$0.25	\$0.20	\$0.15
Sheridan	2-year, Select X, heavy	.35	.30	.25	.20

CACO (Red)
We consider this Grape one of the best varieties. The fruit is very large, rich and sugary, with a delicious melting flavor. It is the hardy, vigorous vine that assures the grower extra profits. The vines bear young, heavily and regularly. Ripens in August.

FREDONIA (Purple)
A new Grape which experts and most growers say will soon become the leading black Grape in America. It ripens early, 10 days before Moore's early. Berries are large, very juicy, and have delicious flavor. This vigorous, productive variety is unusually hardy. Plant some Fredonia vines this year.

SHERIDAN (Blue)
A new blue-black Grape that ripens a week after Concord. It has an even sweeter and richer flavor. Berries are very large, and the vine is an unusually heavy bearer. This is considered a choice Grape by experts and commercial growers.

PORTLAND (White)
Earliest of varieties to ripen. Produces a large, white fruit with spicy and luscious flavor. A very hardy, popular, money-making variety. Usually ripens a few days ahead of Fredonia. The amber-white color of the fruit makes it one of the most popular Grape varieties.

PRODUCE PROFITABLE
LOW COST CROPS
ANNUALLY**

AGAWAM (Red)
The most widely grown of the red Grapes. Large, rich, sweet and aromatic. Ripens after Concord.

DIAMOND (Green)
It is the hardiest, most productive and vigorous of the green Grapes. It deserves a high place among the best for commercial and home vineyards. Blooms mid-season.

CONCORD (Black)
The most widely planted Grape. Superior in hardiness and productivity and regularity in bearing and in ability to withstand disease and insects. It is the leader for making Grape Juice.

NIAGARA (Green)
The most widely planted green Grape. Larger bunches and berries than Concord, as good, or better quality. Productive, vigorous, adaptable. Ripens about with Concord. Blooms midseason.

DELAWARE (Red)
The standard of quality; the best table Grape. Unusually hardy; usually bears abundantly. Blooms rather late.

MOORE'S EARLY (Purplish black)
The most widely planted early commercial Grape. Ripens two weeks earlier than Concord. Good quality. It is best described as an early Concord. Blooms mid-season.

WORDEN (Black)
Much better quality, larger berries and bunches and handsomer than Concord and is equally healthy, hardy, vigorous and productive. Ripens a week to ten days earlier than Concord.

Raise More Grapes for Health

NEOSHO Improved APPLE VARIETIES

THESE varieties are considered the finest, heavy producing strains, and Neosho Nurseries have always been one of the leaders in the production of hardy, money-making Apple tree varieties. You buy with confidence when you buy Neosho Apple Improved Varieties. Plant these summer, fall and winter Apples. Then you can have Apples almost the year around.

ANOKA The Old Folks' Apple

The second year, big, full sized crop; earliest and heaviest bearing Apple. Hardy in all climates; **never winter-kills**. Can be grown anywhere in the United States. Ripens in August but can be used a month earlier. Apples are good sized, well formed, beautifully colored. Has proven to be one of the very best early summer Apples for all purposes.

DARK RED JONATHAN

You increase your profits when you plant Dark Red Jonathan. This is an improved strain of Jonathan, **and the most profitable Apple obtainable**. The Dark Red Jonathan attains a brilliant red color two weeks before ripening, and this, in turn, gains the advantage of higher market prices for the grower. Early marketing also eliminates windfalls.

DOUBLE-WORKED GRIMES GOLDEN

Is the best quality and **most profitable yellow apple**; a rich golden color, fine flavor and aroma, an ideal desert Apple and an equally fine cooker. You cannot go wrong on this beauty because it is a definitely profitable Apple, easy to grow, hardy and prolific bearer. Double-worked Grimes Golden are trees top budded onto a hardy trunk to make the tree more productive and to double the profitable life of your orchard.

GOLDEN LODI

New, Improved Transparent. Has been thoroughly tested and meets every requirement of an outstanding early apple for quality, productiveness and profit. A large waxen apple of clear Transparent color but they handle, keep and ship better because flesh is firm and thick skin. **Twice the size of Transparent** and the tree is a vigorous spreading grower. It ripens July 1st.

RED DUCHESS

This is a strain of the Duchess. The only difference is that it colors somewhat earlier, and better, which is a big advantage for the commercial Apple grower. **Profits are larger** because of the earlier marketing quality. Plant a few of these in your orchard this year.

RUBY-RED ROME BEAUTY

Identical with the Rome Beauty except that it colors earlier and has more red color. Hence, it is a more profitable Apple for the grower. This is also a hardy, vigorous Apple tree, and is a popular favorite in almost every section of the Apple country.

DOUBLE RED STAYMAN

Everyone is familiar with the wonderful, early coloring qualities of the Red Stayman. The Neosho Dark Red Stayman is a marvelous improvement over many Stayman Apples; has more color and keeping qualities. It is the solid dark red which makes it a universal favorite.

Blood-Red
Delicious

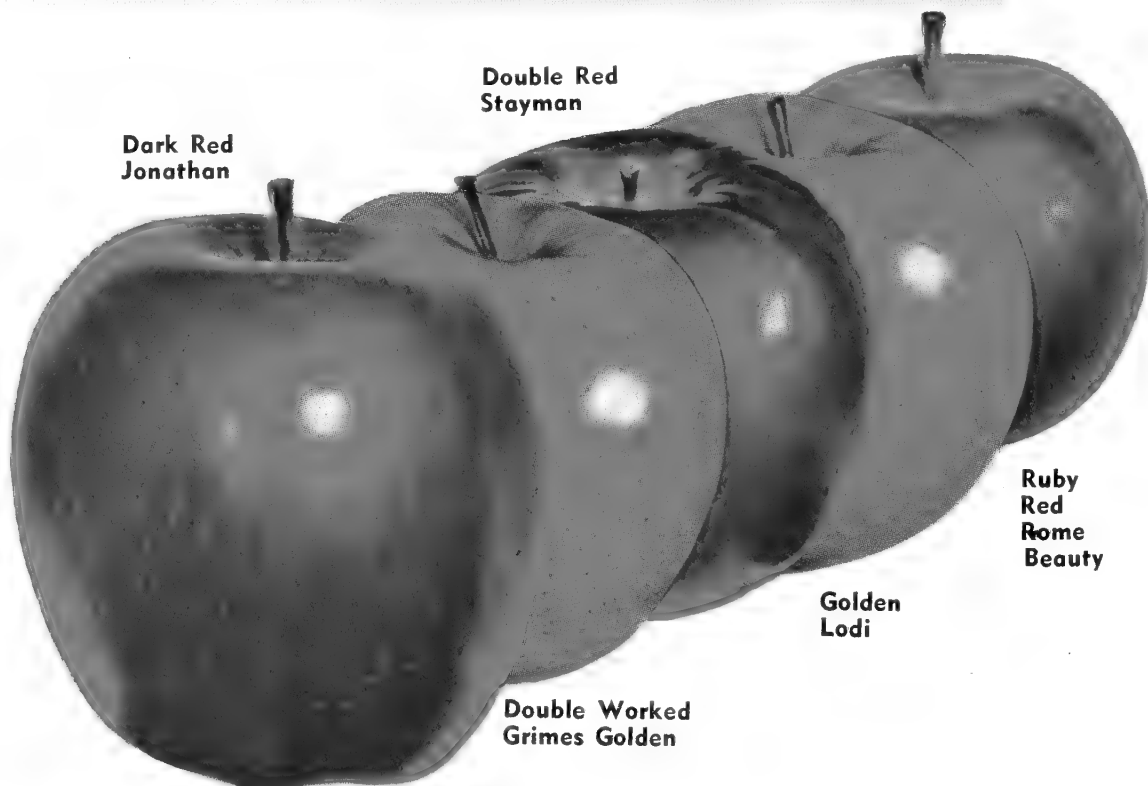

BLOOD-RED DELICIOUS

Has all of the good qualities of the common Delicious, but colors out a deeper red, and 2 to 3 weeks before the common Delicious begins to take color. This means earlier profits and bigger profits for the grower because earlier picking, earlier marketing, and more **extra fancy grade**, with little or no windfalls, and color to get the best prices.

Super X Trees bear early. Due to demand from our customers we are listing Super X or Super Size apple. Do you wish you had planted those trees two years ago? If so, plant Super X grade. These choice specimens make a rapid growth, will produce quick results, come into bearing early and make strong, vigorous, productive trees.

TURLEY WINESAP

A truly fine quality Apple of a beautiful ruby-red color of the Stayman type. Absolutely does not crack. This is Indiana's greatest gift to the Apple industry and their most precious crop. You, too, will find it a profit maker.

WHETSTONE

The Missouri Fruit Experiment Station put in 40 years time and effort crossing Jonathan and Ben Davis to develop an apple with Jonathan quality and Ben Davis productiveness and keeping qualities. Out of 600 crosses **this apple is their first choice** from a profit standpoint. It fills up the barrel or basket with large, high-colored apples that will hang on the tree to Christmas, if necessary, and keep until spring.

YELLOW DELICIOUS

Popular, big, beautiful yellow apple. Has a wonderful flavor, excellent quality, firm flesh, and fast ripening quality. Tree begins bearing at a very early age and is a vigorous grower so that a six-year-old tree can have 5 or 6 bushels of apples, and a 15-year-old tree 20 to 25 bushels. Brings highest prices and is in demand on every market.

CRABAPPLES

HYSLOP

Large, very brilliant'y colored, dark red or purplish, over-spread with thick blue bloom; good jelly and preserves.

Four-Year-Old Yellow Delicious

STANDARD VARIETIES of STURDY NEOSHO 2-YEAR APPLES

1-YR. APPLE GRAFTS will be quoted on **REQUEST** if interested in 100 or more trees.

BLACK BEN. (Winter.) The best of the Ben Davis family. It attains a much higher color than Ben Davis or Gano. The tree is hardier, more vigorous and more prolific than Ben Davis. Fruit is large, solid dark red.

DELICIOUS. (Winter.) Who is not familiar with this popular Apple? Who does not appreciate its unexcelled flavor, its beauty of form and color, its fragrant aroma? It finds a ready sale at high prices. Tree vigorous, hardy, is fruiting in nearly every state.

JONATHAN. (Fall.) A grand, good Apple; once tasted, always wanted. Bright solid red; aromatic flavor and juice full of snap and sparkle. Medium size; good to best quality. Bears young; good crops regularly. Fine for home and commercial planting.

KING DAVID. (Fall.) Bears heavy crops year after year. Medium size; very dark, rich garnet-red, showing almost a purplish black on the sunny side. Tree hardy, vigorous grower; bears young. Often used as a filler.

MAIDEN BLUSH. (Late Summer.) Waxen yellow with red blush; mild flavor, large size.

ROME BEAUTY. (Winter.) Large, roundish Apple, handsomely colored and striped with bright red; good quality. Splendid storage Apple; a splendid bearer; blooms late.

STAYMAN WINESAP. (Winter.) Largest of the Winesaps, striped and splashed bright crimson. Splendid quality. Reliable annual cropper.

WEALTHY. (Late Summer.) A most dependable and widely planted late summer Apple; bright red striped; medium to large size. Ripens over a long season. Very good quality. Tree upright grower; often used as a filler; very hardy; bears young.

WILSON JUNE. (Midsummer.) A deep, solid crimson like a Red June; large, good quality. Hardy, vigorous, very productive, bears young. Most beautiful of its season; good shipper.

STANDARD VARIETIES APPLE

	5	25	100

4-6 ft. . .	.75	.65	.55
Super X . .	.90	.80	.70

WINESAP. (Winter.) One of the oldest and most popular Apples; a good shipper and an exceptionally good keeper in ordinary and cold storage. Splendid bright red, indistinctly striped with dark purplish red; good quality. Medium size. Hardy; a heavy, regular bearer.

YELLOW TRANSPARENT. (Early Summer.) The best extra early Apple; medium size; a beautiful clear yellow; smooth, waxen, brilliant skin. Unexcelled for pies, tarts and apple sauce. Tree extremely hardy, upright, compact grower; often used as a filler; reliable cropper.

YORK IMPERIAL. (Winter.) Bright pin-striped with dark red; fair quality. Its oblique or lop-sided shape is a notable characteristic. A very heavy bearer. Easy to handle. Imperial good keeper in dry storage.

FAMOUS NEOSHO CHERRIES!

World's
Finest
Cherries!*

EASY TO RAISE—GROW RAPIDLY

NEOSHO CHERRIES (Sour)

PRICES—Early Richmond, Montmorency

	Each	5 Rate
2-3 ft.	\$0.70	\$0.60
3-3½ ft., 7/16 in. cal.85	.75
3½-4 ft., 9/16 in. cal.	1.15	1.00

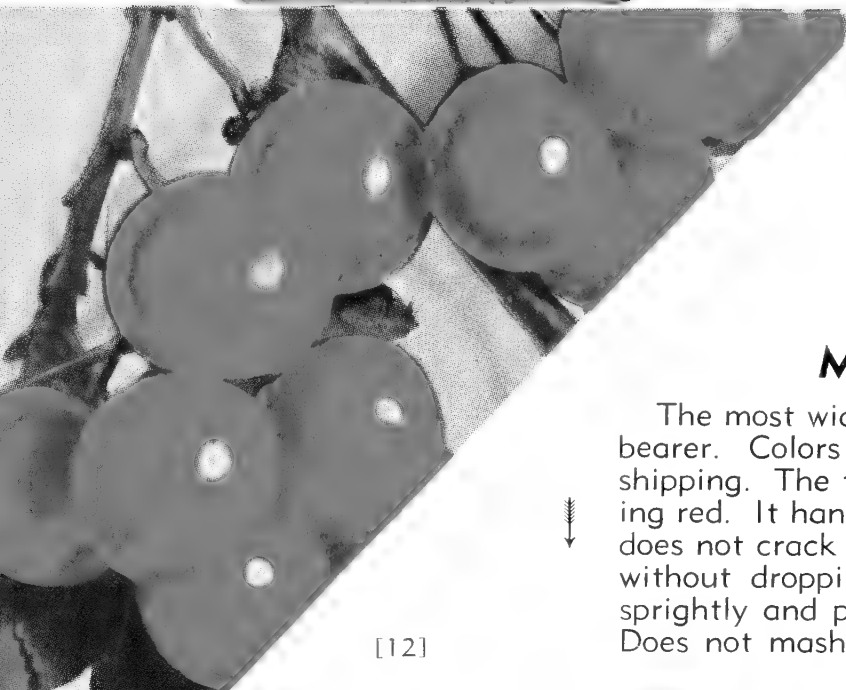

← EARLY RICHMOND (Sour)

The favorite early bright red May sour Cherry. Fruit is medium size. A good canner. Tree is medium size. Ripens about a week earlier than Montmorency.

MONTMORENCY (Sour)

The most widely planted Cherry. Productive and a regular bearer. Colors early before ripe—a distinct advantage for shipping. The fruit is roundish, plump and a beautiful glowing red. It hangs in clusters, making picking easy. The fruit does not crack or rot, even in very hot weather. It hangs on without dropping after it is dead ripe. The flesh is rich, sprightly and pleasant. A good shipper and a good canner. Does not mash down in the box.

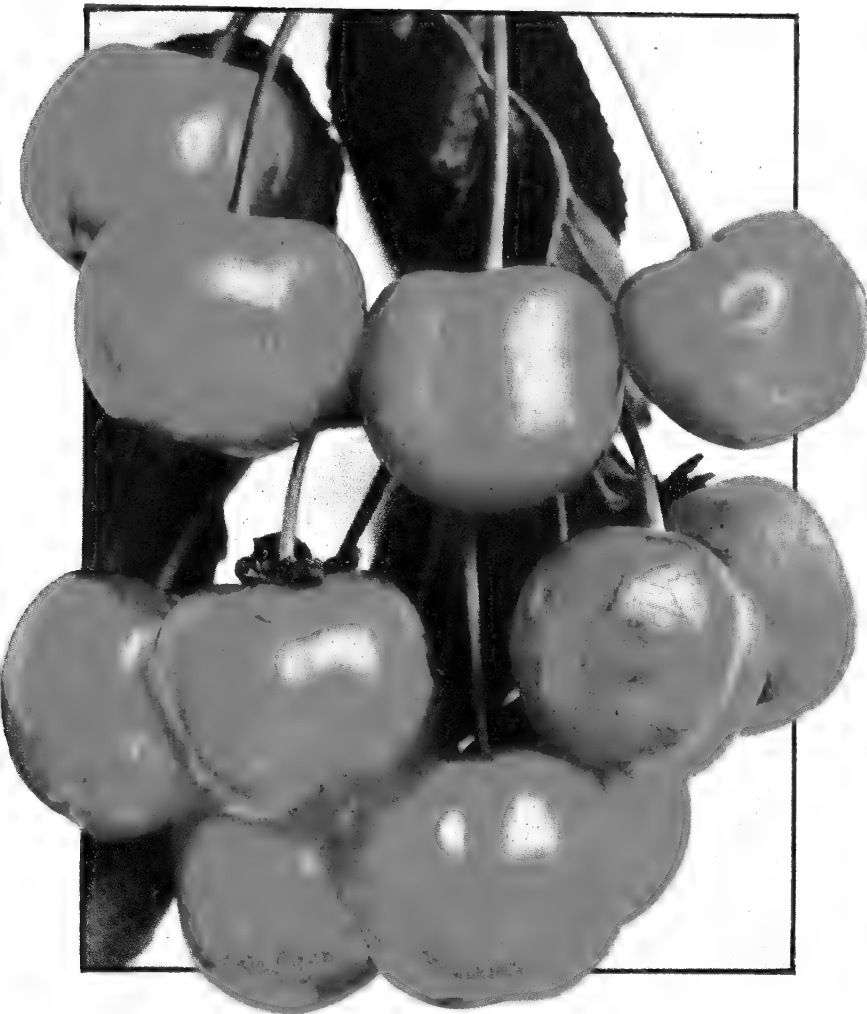

[12]

Sweet Cherries

	Each	5 Rate
3-4 ft.	\$1.00	\$0.90
4½-5 ft.	1.35	1.25

A Sweet Cherry planted alone is not likely to bear fruit, because it is self-sterile. Plant a Black Tartarian with any other Sweet Cherry.

NEOSHO NAPOLEON

This is a select strain of yellow Sweet Cherry which has produced a crop seven straight years here in Neosho. The best yellow Sweet Cherry. Mellow, sweet flavor. A fancy dessert variety, but is also a good keeper and bearer.

BLACK TARTARIAN

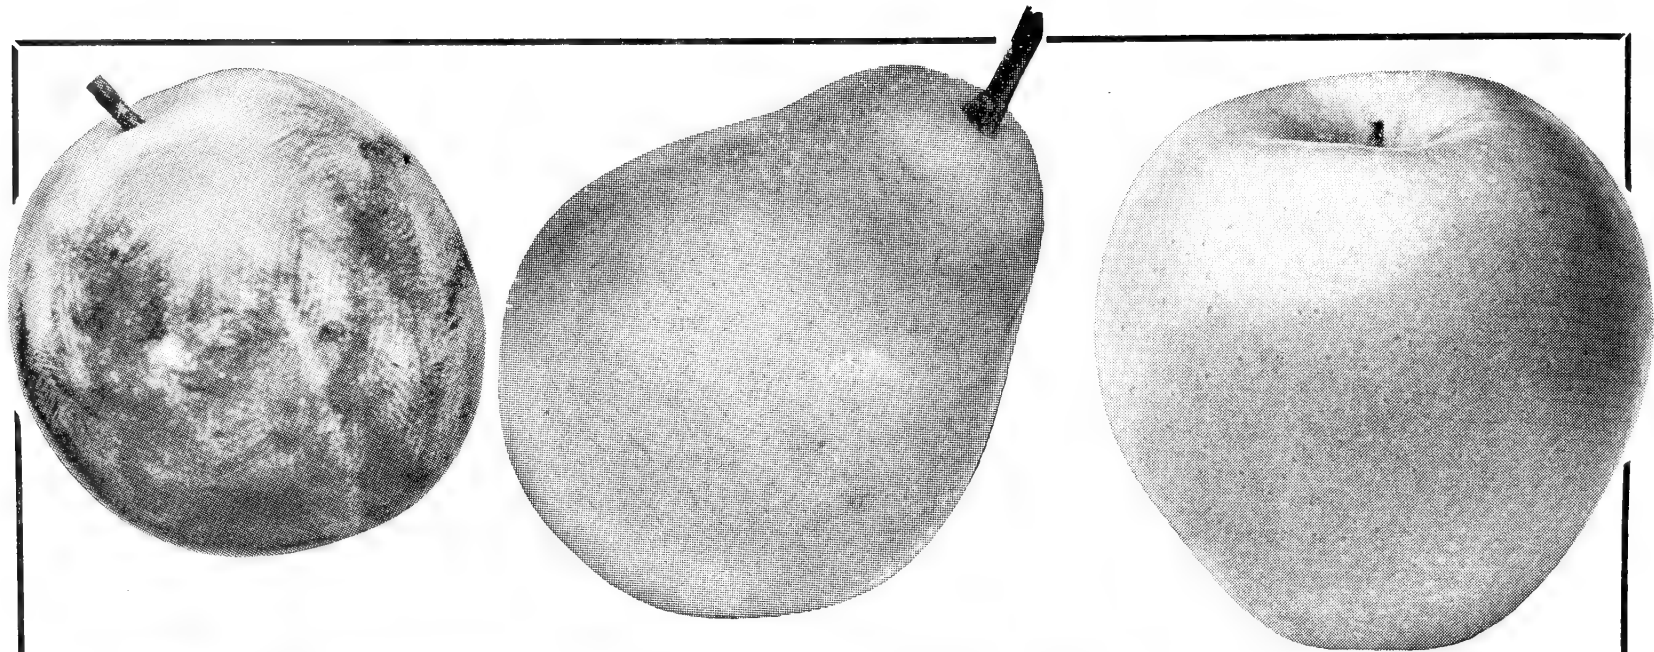

Most widely planted Sweet Cherry east of the Mississippi. Beautiful lustrous, purplish black when ripe. Medium size for Sweet Cherry, very good quality. The tree is a very large, vigorous, upright grower. Very productive and regular bearer. Early.

THE *New* KOREAN BUSH CHERRY

Perfectly hardy ornamental shrub with white blossoms followed by rich red fruit which is fine for making jam, jelly and pie. Plant two or more for pollination.

2 for \$1.49

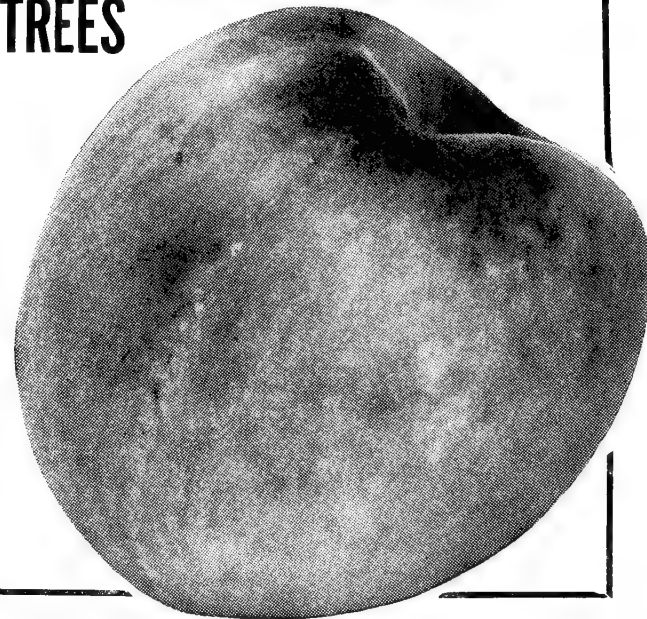

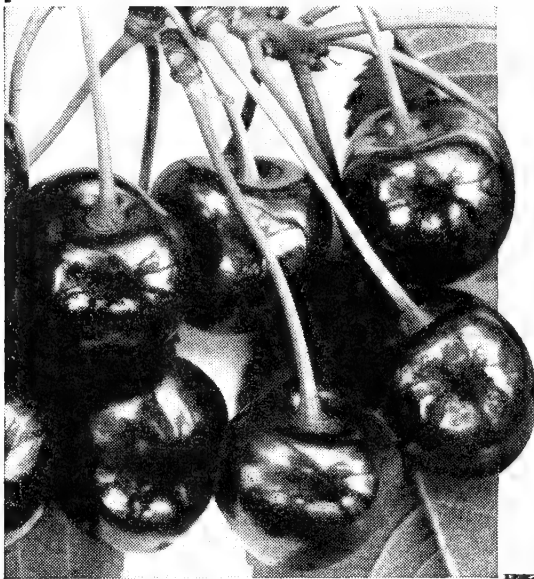

12 STURDY 4-6 FT. FRUIT TREES

Your Choice of Varieties

4 Apple 2 Cherry, Sour
4 Peach 1 Pear
1 Plum

We will add FREE 12 smaller fruit trees of our choice.

24 TREES In All for Only **\$994**
Reg. Value, 12 Trees, \$13.25.

IMPROVED HARDY GOLDEN APRICOT

WHO does not like apricot sauce and preserves? And here is an improved Hardy Garden Apricot that wins favor everywhere.

	Each	5 Rate
2-3 ft.	\$1.00	\$0.90
3-4 ft.	1.25	1.15

Stanley
Prune
Plum

SUPERB APRICOT

Such delightful luscious fruit as the Apricot really should be planted more than it is, since it ripens just after the early cherries, and before the best peaches. Apricots will stand more winter cold than peaches, although the bloom is more apt to be injured by spring frost. A northern or eastern slope is best so the opening of the buds will be retarded and the danger of frost damage lessened.

NECTARINE, SURECROP

A cross between peach and plum. Has smooth skin like a plum and seed like a peach. Flesh and flavor of both plum and peach. Quality unusually pleasing. Color beautiful bright red; size about same as medium size peach. Freestone.

PRICES OF SUPERB APRICOT SURECROP NECTARINE STANLEY PRUNE

	Each	5 Rate
2-3 ft.	\$0.90	\$0.80
3-4 ft.	1.00	.90
4-6 ft.	1.25	1.15

STANLEY PRUNE

Crop second year, ripens 10 days ahead of other Prunes. Beautiful purple-blue skin, sweet golden flesh. Freestone. Requires but little sugar and colors deep wine-red when canned. Retains its shape and skin; does not fade.

NEOSHO Famous Quality PEARS

Popular, Hardy, DOUGLAS PEAR

Douglas is a large, handsome pear of Bartlett quality that ripens in early fall and comes into bearing the second or third year. Golden yellow flushed with pink, tender, juicy, excellent flavor. Douglas is the outstanding pear for the central west. It is blight proof, very resistant to dry weather, and if your bloom is killed by spring frost will send out a new set of blossoms on the new wood and set a crop of fruit, so you will have pears every year on Douglas. It's an early bearer, often bearing on 2-year-old trees in the nursery row.

We are propagating our Douglas on a new hardy understock called Calleryana which makes an unusually thrifty growth and heavy root system, and is also blight proof.

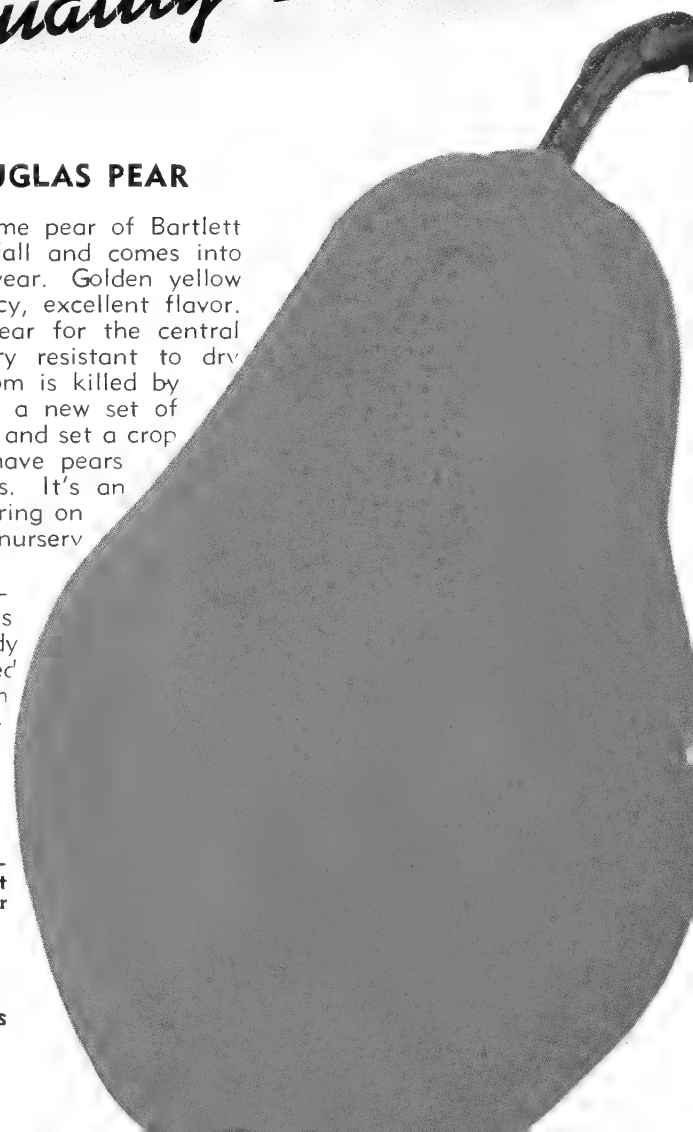

Douglas Pear offered for the first time at Standard Pear prices on page 17.

Douglas

PLUMS DIRECT TO YOU FROM THE GROWER

ABUNDANCE

(Early.) A pinkish red Plum. Medium size. Flesh is yellow; sweet, aromatic. Tree is a vigorous grower.

Nashville, Ill.,
Jan. 26, 1943.

I am rather late in reporting, but the trees you shipped to me came through without delay and arrived in good shape.

The trees looked good to me and I don't see why they shouldn't grow under favorable conditions.

The first shipment I got from you, a lot of 300 out of which I didn't lose a single tree, and I hope these will do the same.

Yours respectfully,

ALF. B. HAKE.

BURBANK

(Midseason.) A dark red, roundish Plum, good quality and shipper. The flesh is a deep yellow, firm, very juicy, aromatic and sweet.

SAPA

(Hansen Hybrid.) A large size purple Hansen Hybrid, with purple flesh full of rich juice of fine flavor. Bears heavy crops annually and begins fruiting the first year after planting. Succeeds everywhere, ripens middle of July. Fine for canning.

WANETA

A Hansen Hybrid. Exceptionally hardy, withstanding extremely hot and dry weather. Often bears second year. Color purplish red, 2 inches in diameter.

WILD GOOSE

(Very Early.) An old-time favorite, bright red; medium size. Flesh is yellow, very sweet, quality fair to good. Good shipper and keeper.

THIS hardy, fast-growing fruit is ideal for the back-lot farmer or the commercial grower. The following varieties are all outstanding Neosho Plums, specially selected for early, mid-season and very early fruit. We list only the best, thoroughly tested Plums, varieties that can be successfully and profitably grown all over America. They give you a wide choice, and, as always, you can depend on Neosho trees to give you "Growing Satisfaction."

NEOSHO PEARS THRIVE!

Direct to You from Our Famous Ozark Mountain Nurseries

BARTLETT

(Late Summer.) The leading commercial variety, one of the most popular for dessert and canning. Large, clear yellow with blush on sunny side. Flesh is white, fine grained, juicy and sweet. Tree is vigorous, very productive, hardy, bears young. Here in the famous Ozark country the Bartlett has proved one of the most popular money-making varieties. Very juicy, sweet and of highest quality.

KIEFFER

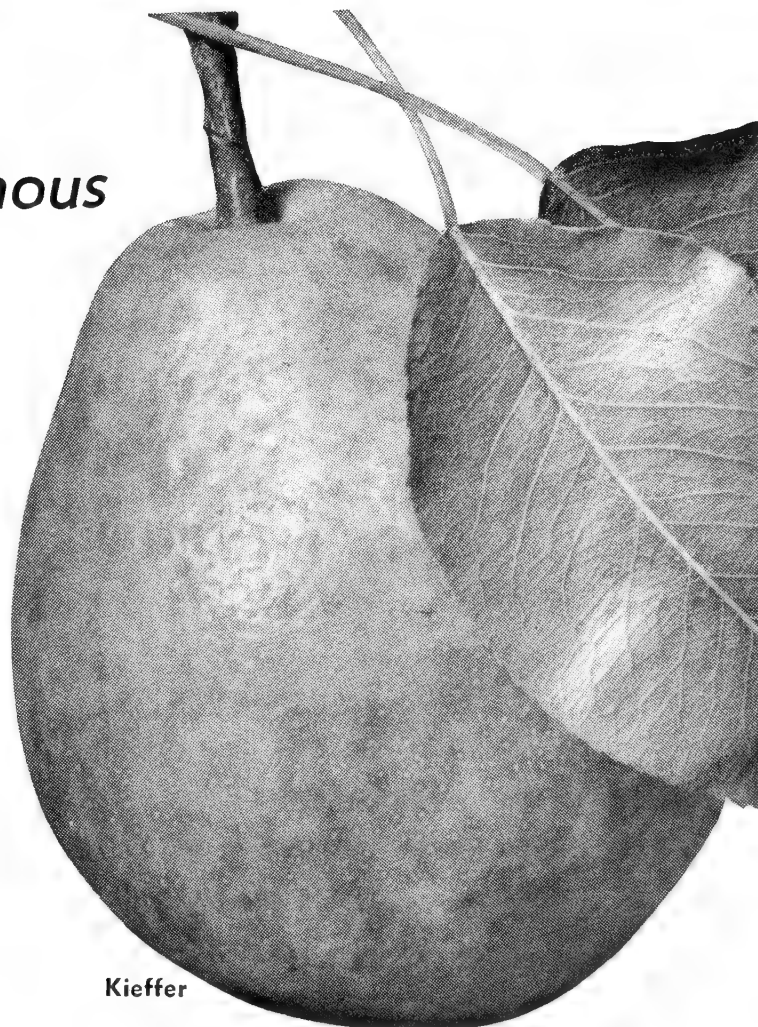

(Winter.) Large, yellow, russeted; flesh white, rather coarse. A market and kitchen variety that succeeds farther south where other varieties fail. Tree hardy, very vigorous, resistant to blight. Blooms early.

LINCOLN

(Summer.) Large, yellow; quality good to very good; similar to Bartlett but more resistant to blight. Succeeds farther south than Bartlett can be grown. It has stood the severest tests of intense, moist summer heat and low altitude of the climate of Lincoln, Illinois, where it was originated by W. E. Jones. Comes into early bearing and bears heavy crops annually; very hardy. Blooms midseason.

HARDY CLIMBERS OF UNUSUAL BEAUTY

Each 75c

3 for \$2.10

6 for \$3.65

AMERICAN BEAUTY

A strong grower with large flowers of a very pleasing rose-pink color. Very good for cutting, and blooms are exquisitely colored and unusually fragrant. One of the most popular Neosho Hardy Climbing Roses.

SILVER MOON

The creamy white buds are long and pointed and open into semi-double, white flowers with golden yellow stamens. An excellent regular monthly bloomer.

PAUL'S SCARLET

The most brilliant scarlet. Has semi-double flowers, freely produced. This variety is illustrated in natural color at right. Is a very hardy Rose and has strong climbing habit.

MARY WALLACE

The flowers are semi-double, a bright and clear rose-pink with salmon base. These are often 4 inches across, appearing intermittently throughout the season.

DR. W. VAN FLEET

Has long, pointed buds of rich flesh-pink. It is a hardy climber and a splendid variety for cutting. Blooms early and late, and thrives everywhere.

Outstanding!

CHINESE REDBUD

This charming, brilliant spring-flowering shrub is a Chinese counterpart of our native Redbud. It flowers at the same time but the quantity and quality of its flowers far surpass those of our common form. It is shrublike in growth, and when it blooms every branch and twig is covered with thousands of bright rosy-lilac blossoms almost double the size of the common variety and much darker in color. You will want this in your garden or yard, surely.

	Each
Parcel Post	\$1.00

BUDDLEIA

BUDDLEIA, FASCINATING. A beautiful new variety with huge soft pink, or orchid, trusses of flowers 14 to 18 inches long throughout the summer and autumn. The more the flowers are cut, the more new ones grow. **No. 1, \$1.00 each**

BUDDLEIA, FLAMING VIOLET. The finest and most brilliant of all. Immense spikes of flaming violet intensely brilliant and sparkling with a fiery glow rarely seen in flowers. Flower trusses are 12 to 18 inches long and last a long time in bloom on the shrubs, as well as when cut and placed in water. Plant is vigorous, strong and upright. Flowers throughout the summer and autumn.

No. 1, \$1.00 each

BUDDLEIA, ILE DE FRANCE. While not as new as the above varieties, it is still outstanding. Rich claret-purple spikes of bloom all summer. Fragrant. **Each 75c**

ALTHEA. Upright shrub blooming Aug.-Sept. Colors pink, red, white, and lavender.

BARBERRY, Red Leaf. Brilliant red foliage all season.

BUTTERFLY BUSH. Purple flower spikes all summer.

BUTTON BUSH. Good foliage; feathery, round white flowers June-Sept. Grows 6 to 8 feet.

DESMODIUM. Purple flowers in late summer.

DEUTZIA Gracilis. Low, graceful shrub 2 to 3 feet with profusion of white flowers in May.

DEUTZIA Lemoine. Grows 5 to 6 feet with large, showy white flowers in May.

DEUTZIA, Pride of Rochester. Grows 10 to 12 feet, double white flowers tinged with pink.

FORSYTHIA Spectabilis. Rich golden flowers in March-April.

GOLDEN ELDER. Grows 10 to 12 feet with attractive golden yellow foliage.

HONEYSUCKLE, Fragrant. Grows 6 to 8 feet. Fragrant white flowers in March; nearly evergreen.

HONEYSUCKLE, Tartarian. Grows 8 to 10 feet. Rosy pink flowers followed by red fruits.

LILAC, Chinese. Grows 8 to 10 feet. Blooms second year, rosy purple.

LILAC, Common. The old-fashioned favorite.

MOCK ORANGE, White Bouquet. Grows 6 to 8 feet. Completely covered with fragrant white blossoms in April.

MOCK ORANGE, Lemoinei. Grows 5 to 6 feet. Dense racemes of fragrant white flowers.

MOCK ORANGE, Virginal. Grows 5 to 6 feet. Large, double fragrant white flowers in May.

PRIVET, Fern Leaf (Regel's). Low growing, dense shrub with horizontal branches; one of the best for shaded location.

SCARLET QUINCE. Bright scarlet blossoms in March-April.

SPIREA, Crimson (Anthony Waterer). Dwarf shrub with bright red flowers all summer.

SPIREA, Korean. Similar to Bridal Wreath, blooms two weeks later. Grows 6 to 8 feet.

SPIREA, Dwarf White. Flat white blossoms all summer. Grows 2 to 3 feet.

SPIREA Thunbergi. Graceful habit, white flowers in March-April. Grows 5 to 6 feet.

TAMARISK, Africana. Fine, graceful foliage with showy pink trumpet-shaped flowers in May. Grows 10 to 12 feet.

WEIGELA Rosea. Showy pink trumpet-shaped flowers in May.

Bargain Counter

Here are some really outstanding values. Some varieties quite new and unusual of which we have a surplus we are offering at a real saving. Big, healthy, bushy plants.

BEAUTYBERRY. Small pink-tinted flowers followed by masses of violet-purple berries in late summer. An unusual shrub; perfectly hardy, grows to 6 feet.

BRILLIANT CHOKEBERRY. White flowers followed by shining red berries and fine fall color. Will endure shade. Grows 4 to 5 feet.

CHENAULTI SNOWBERRY. A fine new shrub, graceful form, excellent foliage, attractive berries; perfectly hardy. Foliage is a rich green; berries red and white. Makes a dense bush 3 to 4 feet tall with a lacy fernlike appearance.

JETBEAD. A low, somewhat arching bush with pretty foliage and attractive white flowers in May followed by shiny black berries.

MOCK ORANGE, Common. Fragrant white flowers in April; grows 8 to 10 feet.

REDTWIG DOGWOOD. Creamy white flowers in spring followed by blue berries. Attractive red bark in winter.

SPIREA FROBELI. A low, compact shrub to 4 feet covered in May and June with clusters of bright pink flowers. Foliage maroon and green; perfectly hardy.

SPIREA BILLIARDI. Grows 4 to 5 feet tall and has feathery pink plumes most of the summer. Thrives anywhere.

SPIREA VAN HOUTTEI. This popular shrub needs no description. Most people know it as "Bridal Wreath."

See Page 22 for quantity rates on Spirea, Barberry and Honeysuckle.

Each	Each
2-3 ft.\$1.00	3-4 ft.\$1.35

CRAB, Hopa Flowering. Rose-colored flowers followed by red fruits; attractive foliage.

Each	Each
3-4 ft.\$0.75	4-5 ft.\$1.00

DOGWOOD, White Flowering. Large white blossoms in early spring. Foliage colors beautifully in fall.

Each	Each
4-5 ft.\$1.75	5-6 ft.\$2.25

DOGWOOD, Red Flowering. Pink or red flowers form one of the most attractive flowering trees.

Each	Each
2-3 ft.\$1.75	4-5 ft.\$3.25
3-4 ft. 2.50	5-6 ft. 5.00

ELM, American. A vigorous native tree; tall and spreading grower.

Each	Each
4-5 ft.\$0.75	6-8 ft.\$1.25
5-6 ft.90	8-10 ft. 1.50

ELM, Chinese. The fastest growing shade tree, small leaves; hardy.

Each	3 Rate
4-5 ft.\$0.40	\$0.35
5-6 ft.60	.50
6-8 ft.90	.80
8-10 ft. 1.45	1.35
10-12 ft. 2.25	2.00

ELM, Chinese. (Budded.) This is a select strain of Chinese Elm which we bud to get uniform habit of growth.

Each	3 Rate
5-6 ft.\$0.75	\$0.65
6-8 ft. 1.10	1.00
8-10 ft. 1.60	1.50
10-12 ft. 2.50	2.25

ELM, Broadleaf Chinese. A select, budded strain of our own origin that are all true to type and symmetrical in growth; smooth bark, straight trunks, extremely rapid growth and much harder than regular Chinese Elm. Does not injure in sub-zero temperature. Not unusual to have a tree 35 feet tall in 5 years time. The broadleaf type has a leaf as large as American Elm and is vase-shaped, upright type of growth, whereas the special strain of Regular Chinese Elm has more numerous and drooping branches with spreading habit.

Each	3 Rate
5-6 ft.\$0.75	\$0.65
6-8 ft. 1.10	1.00
8-10 ft. 1.60	1.50
10-12 ft. 2.50	2.25

MAPLE, Silver. A quick grower with light green leaves, silver on under side.

Each	Each
6-8 ft.\$1.00	10-12 ft.\$2.25
8-10 ft. 1.50	

MAPLE, Norway. A large, handsome round-headed hard Maple with deep, rich green foliage turning yellow in fall.

Each
5-6 ft.\$1.50
6-8 ft. 1.95
8-10 ft. 2.95

MAPLE, Sugar. One of the best trees; although a slow grower its long life, compact shape and beautiful fall-coloring of foliage makes it quite desirable.

Each
4-5 ft.\$1.10
5-6 ft. 1.60
6-8 ft. 2.25
8-10 ft. 3.25

MIMOSA. (Silk Tree.) A rapid grower, spreading branches, low flat-topped head, feathery foliage, pink flowers in large heads for several weeks.

Each
3-4 ft.\$1.00
4-5 ft. 1.50

OAK, Pin. The fastest growing Oak. Glossy foliage and symmetrical habit of growth. Very desirable.

Each
4-5 ft.\$1.25
5-6 ft. 1.75
6-8 ft. 2.50

OAK, Red. The best all-around Oak. Grows to 80 feet and has handsome broad leaves, giving splendid shade, turning a rich purplish crimson in fall. A vigorous grower, quickly developing a broad, rounded head. Grows and thrives anywhere.

Each
5-6 ft.\$1.75
6-8 ft. 2.50

Red Flowering Peach

PEACH, Red Flowering. Brilliant double red flowers in spring.

Each	Each
3-4 ft.\$0.75	4-5 ft.\$1.00

PLUM, Red Leaf. A handsome, upright small tree with small pale pink flowers and purple foliage.

Each	Each
2-3 ft.\$0.75	3-4 ft.\$1.00

POPLAR, Bolleana. A new, hardy, long life Poplar, silver leaves and bark.

Each	Each
4-5 ft.\$0.75	6-8 ft.\$1.25
5-6 ft.95	

POPLAR, Lombardy. Tall, slender tree of rapid growth.

Each	5 Rate
3-4 ft.\$0.35	\$0.30
4-5 ft.45	.40
5-6 ft.60	.50
6-8 ft.75	.65
8-10 ft. 1.00	.90

RED BUD. One of the first trees to bloom in spring with reddish pink blossoms before leaves appear.

PEONY COLLECTION. Strong roots of good unnamed varieties, 3 different colors (1 each Red, Pink and White). 3 for \$1.00

PERENNIALS

Each 30c; 3 for 80c; 12 for \$2.50.

Anthemis Tinctoria. Fernlike foliage, large golden yellow flowers all summer. Will grow anywhere.

Bleeding Heart, Eximia. Plumy Bleeding Heart; a dwarf growing new variety with finely cut foliage and pretty pink flowers throughout the season, over a much longer period than the old-fashioned Bleeding Heart.

Canterbury Bells. Tall flower spikes of shades of blue, white and pink.

Cornation, Red-Pink. Hardy with pink or red flowers on stiff stems; fine for cutting, all summer.

Cerastium tomentosum (Snow-in-Summer). A low-growing plant with silvery white foliage and abundance of white flowers in April-May.

Columbine (Aquilegia, Hybrids). Lovely long-spurred blossoms in early spring in wide range of colors.

Digitalis (Foxglove). Long spikes of bell-shaped blossoms in colors from white to rose.

Coreopsis. Large, golden yellow flowers all summer; excellent for cutting.

Delphinium, La Martine. Rich indigo-blue flower spikes.

Delphinium Hybrids.

Forget-Me-Not. Large, rich blue flowers with yellow eye; a charming plant for damp places.

Gaillardia, Burgundy. Improved variety with deep burgundy wine-colored petals; blooms all summer.

Gaillardia, Dazzler. Another improved variety.

Hollyhocks. Double, red, yellow, pink, and white.

Linum Perenne (Flax). Very attractive both in foliage and bloom. Flowers beautiful pale blue on slender, graceful stems.

Missouri Primrose. A low grower and profuse bloomer with solitary yellow flowers 4 inches across from June to August.

Phlox. (Mixed.) Large flower heads in a wide range of colors. Hardy and dependable; perennial. Pink, red, lavender, and white.

Physalis (Chinese Lantern Plant). Orange lanterns in fall. Used in winter bouquets.

Platycodon. Broad thick foliage and deep violet-blue flowers throughout the summer.

Pyrethrum Hybrids (Painted Daisy). Daisy-like flowers of different shades of pink, white and red.

Shasta Daisy, Alaska. Magnificent Daisy-like flowers nearly 5 inches across. Pure glistening white with yellow eye. Blooms all summer; 2 feet.

Sweet Rocket. Fragrant purple flowers in showy spikes. 2 to 3 feet. May-July.

Sweet William, Mixed. A wide range of colors in this mixture of the hardy old-fashioned Sweet William.

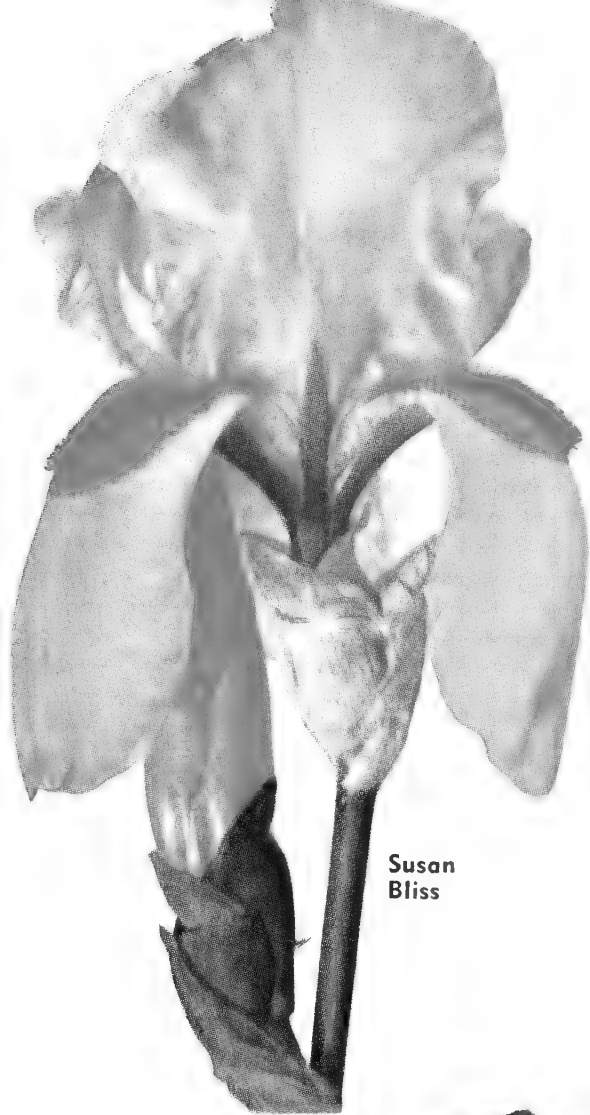

Tunica. A pretty tufted plant with light pink flowers produced all summer; about 6 inches high.

Thymus, Coccineus Serpyllum. A prostrate grower with brilliant scarlet flowers.

Tritoma. Rich orange-scarlet flower spikes 3 to 4 feet high.

Verbena. Pink or red; hardy, creeping plant.

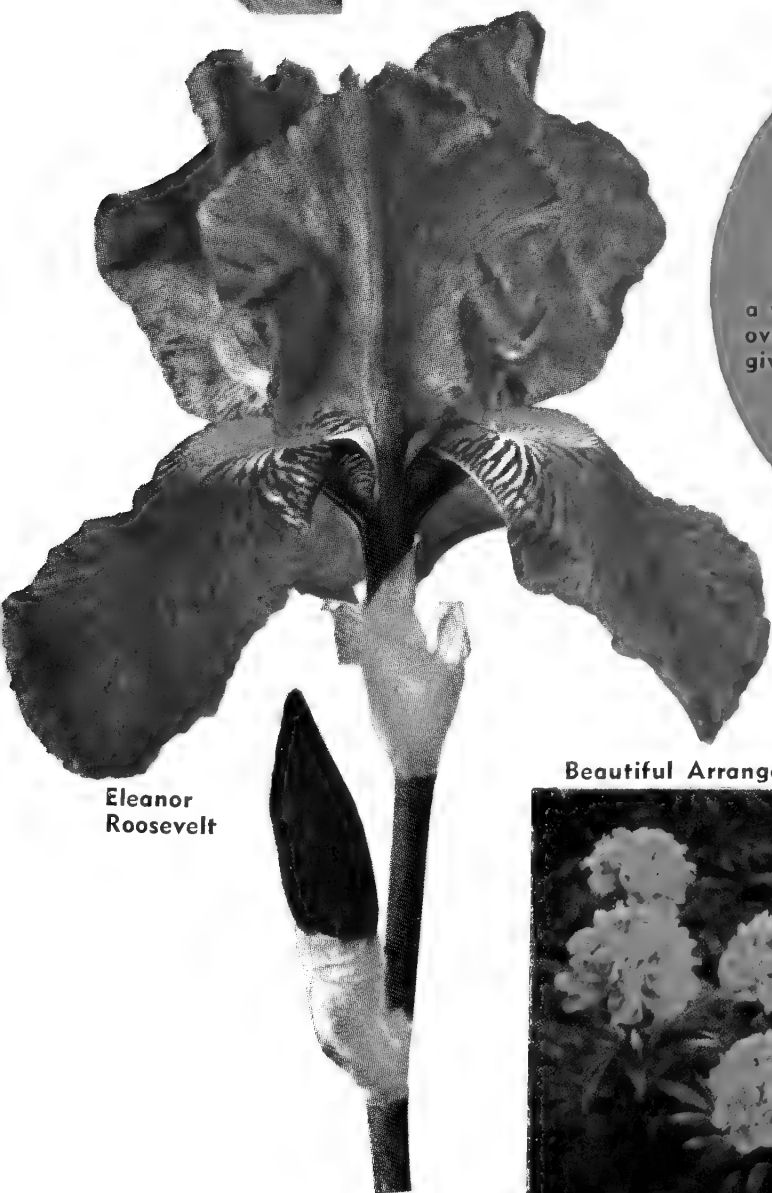

Yellow Day Lily. Hardy, 2 feet. Easy to grow.

Neosho Nurseries, Neosho, Mo.

Dear Sirs:

I received my shipment of fruit trees, grape vines and asparagus yesterday and wish to say they arrived in fine shape, also I appreciate the quick, courteous service you extended me, and I really appreciate the extra fine tree you sent me as a gift in appreciation of my order. Would have ordered more nursery stock, but that was all I had room for.

Henryetta, Okla., March 18, 1943.

WILBUR A. LAYMAN.

PLANT HEALTH

Kill Insects, Worms, Fungus NEOSHO All-Purpose Dust

Our own special formula. Kills eating insects, such as cutworms, bag worms and canker worms. Controls fungous diseases, such as mildew and black spot. Controls sucking insects, such as aphids and red spider.

Keeps your shrubs, roses, evergreens and perennials in healthy condition. Remember, an ounce of prevention is worth a pound of cure. Start your dusting when leaves appear and continue at regular intervals. Will adhere to foliage better if applied when foliage is damp.

1 1/2 lbs., 60c; 3 lbs., \$1.10;
f.o.b. Neosho.

MULCH WITH PEAT MOSS

VICTORY GARDEN SEEDS - - SHADE TREES

NEOSHO, MISSOURI

January 26, 1944.

Dear Friend:

It was our privilege to receive your postal last October requesting a copy of our new spring catalog, and we took pleasure in forwarding the same. We hope you liked it; although we had the largest volume of business this fall in all the years we have been in business, I don't recall receiving your order.

I presume you still have the catalog on hand and available so you can make your selection for spring shipment, but if you have misplaced it we will be happy to send another copy.

Maybe you have been holding our catalog to make comparison with offerings in other nursery catalogs which usually come out in January, and we will be only too glad to have you make comparison, because I don't think you will find any wider offering of new and improved varieties from any source, nor are we afraid of comparison in prices on the quality of stock that we furnish our customers.

One nice thing about having so much fall business, which has already been shipped, it lightens the load and puts us in a better position to render prompt and efficient service this coming spring. But there is one thing certain, it is going to be a big mistake if you wait until late to send your order in, because there is a decided shortage in all nursery stock and we are already beginning to sell out in certain sizes and varieties, so whatever you do get your order in early.

As an added incentive for you to do so, we offer to start you out with a complimentary item of your own choice from any of the following list of ornamental shrubs, providing you will have your order in the mail prior to February 25th. So get your catalog and make your order out now.

Persian Lilac - which will bloom this year
Mock Orange, large flowering, sweet scented
Pink Spirea, monthly blooming
Button Bush, new and unusually attractive

An order of \$1.00 to \$10.00 entitles you to (1) complimentary Shrub, \$10.00 to \$20.00 (2), \$20.00 to \$30.00 (3), \$30.00 to \$40.00 (4).

If you have misplaced the catalog, drop us a line and we will send you another. Or, if you have a friend who would like to have our catalog, just send us their name and address and we will be glad to forward a copy at once.

Awaiting your commands and with best wishes, we are

"Yours for Growing Satisfaction"

[illegible]

Zinnias

Seeds of Annual Flowers

NASTURTIUMS

DWARF MIXED. The most popular dwarf annual, easy to grow in poor soil and blooms for weeks; in rich colors, fine for beds and borders.

Pkt., 15c; oz., 35c.

SWEET PEAS

SPENCER MIXED. The best strain of Sweet Peas, in a choice variety of colors.

Oz., 40c.

ZINNIAS

FINEST MIXED GIANT DAHLIA-FLOWERED. Will grow anywhere; thrive in hot weather.

Pkt., 15c.

PETUNIAS

Easily grown, bloom all summer; improved mixed colors.

Pkt., 25c.

New Hormone

In dust form to aid transplanting and insure quick, strong growth.

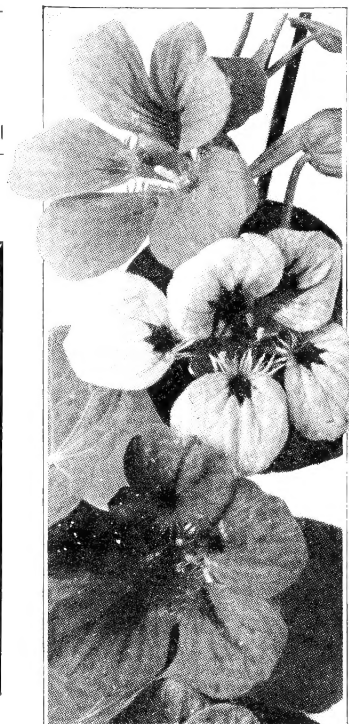

Staleymone

For use on all plants, seeds, trees and grass. The first such product at a reasonable price, and one we have tested on our own grounds with amazing results. Simple to use; directions with each package. Plants start quicker, grow faster, bear sooner.

1-lb. package \$1.00
5-lb. package 2.50

Sweet Peas

Nasturtium

Petunias

NUT TREES

Thomas Black Walnut

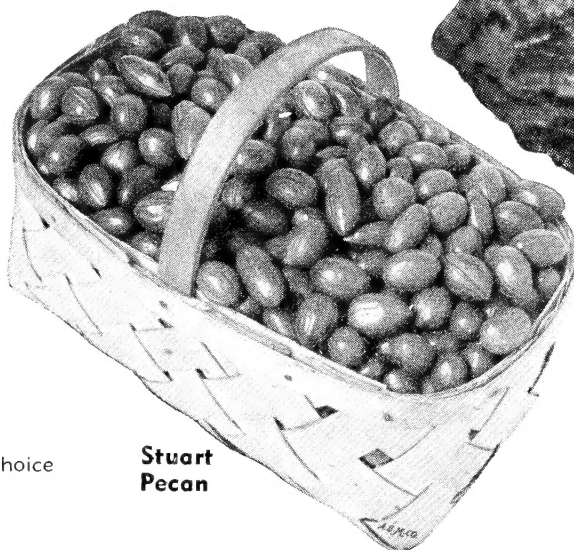

The most remarkable of all Nut Trees. Bears young—immense size—crack out in halves—grows anywhere. A mature tree will produce 15 to 40 bushels of nuts which sell for \$4.00 to \$7.00 per bushel. Our supply is limited—first come, first served.

4-6 ft., each \$2.98.

Stuart Pecan

The hardiest of the Paper-Shells—large, thin-shelled, delicious nuts. Ornamental as well as fruitful.

4-5 ft., each \$2.50.

Stuart Pecan

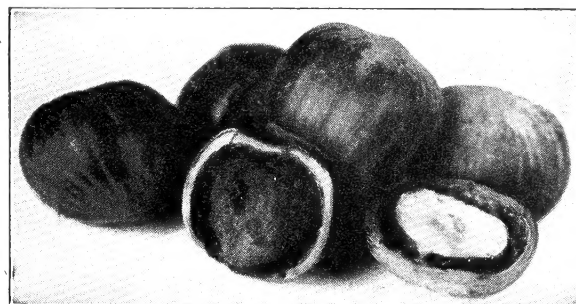

Thomas Black Walnut

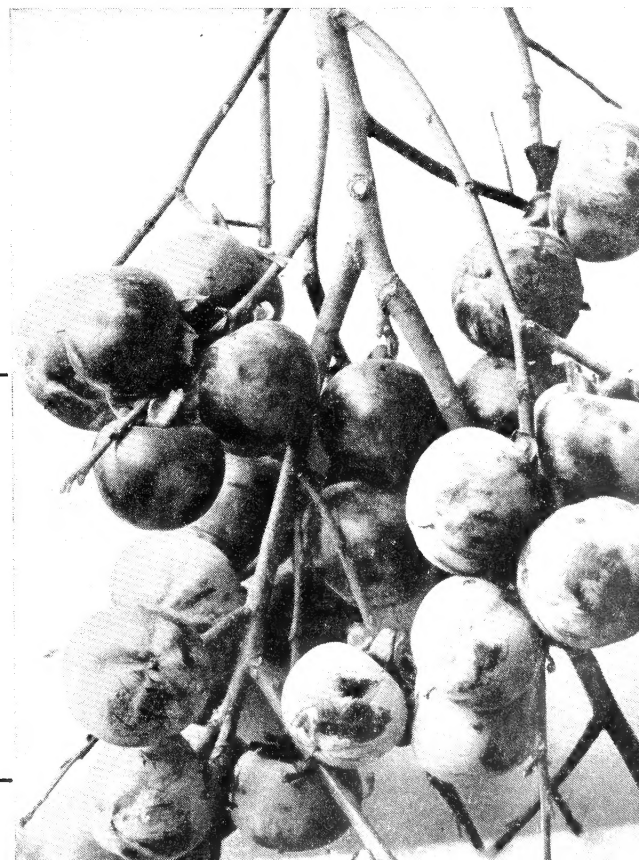

Hazelnut

Round, sweet kernels, easily removed and delicious for many uses. Plants grow more like a large shrub with decorative foliage. Bear young and are hardy. Plant a group of them in the corner of your yard.

	Each
3-4 ft.	\$1.25
4-5 ft.	1.49
5-6 ft.	1.98

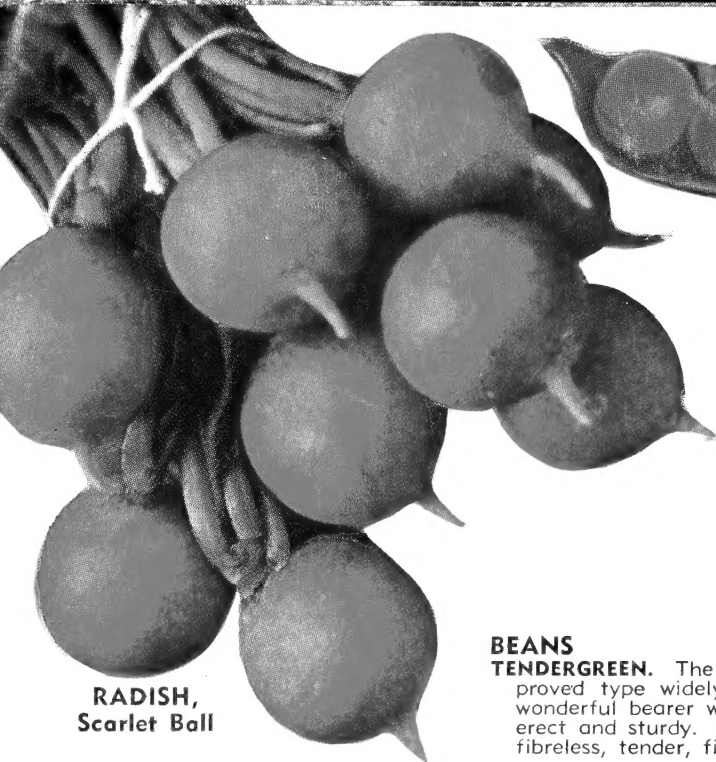

Hazelnut

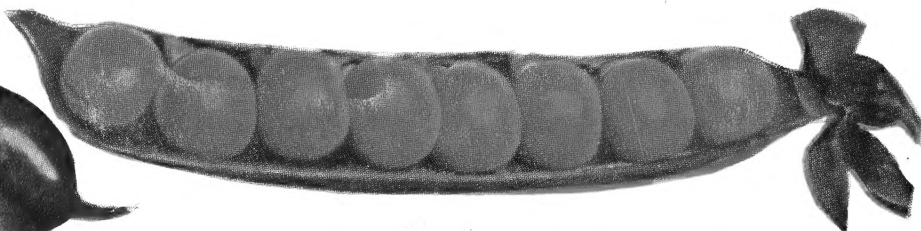

Hardy Ozark Persimmon

Sweet as honey—absolutely hardy—ornamental. These are the sweet native Persimmons and are perfectly hardy anywhere that peaches will grow. They make a compact ornamental tree and will bear practically every year.

	Each
4-5 ft.	\$1.75
5-6 ft.	2.25
6-8 ft.	2.75

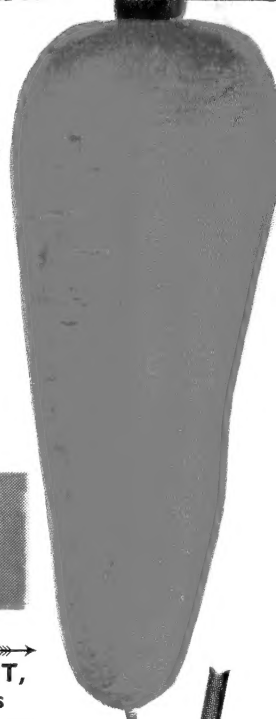

RADISH,
Scarlet Ball

Vegetable Seed

NEOSHO Tested Quality

Fresh 1943 Seed especially treated with hormone for quick germination and rapid growth. (All seed prices postpaid.)

CARROT,
Danvers
Half-Long

BEANS

TENDERGREEN. The leading all-purpose round-pod stringless bean. An improved type widely adapted, increasing in popularity each year. Truly a wonderful bearer with excellent qualities. Bush grows 16 to 18 inches tall, erect and sturdy. Pods are 6 to 6½ inches long, smooth, round, stringless, fibreless, tender, fine textured flesh; medium dark green color.

Pkt., 15c; ½ lb., 40c; 1 lb., 70c

FORDHOOK BUSH LIMA. Famed for its distinct large size and appealing flavor. Fine for quick freezing. Vine grows 16 to 18 inches tall; vigorous and heavily productive. Pods are 4 to 4½ inches long, 3 to 4 beans per pod; straight, broad, plump.

Pkt., 15c; ½ lb., 40c; 1 lb., 70c

KENTUCKY WONDER BEANS. Vigorous, hardy, prolific vine type green bean. Pods brittle and tender, fibreless.

Pkt., 15c; ½ lb., 35c; 1 lb., 65c

BEETS

CROSBY'S EGYPTIAN. A fine extra early sort for home and market garden use. Rich, deep red without fibre; fine textured, tender, crisp.

Pkt., 15c; ½ oz., 30c; 1 oz., 50c

CANTALOUPE

HEARTS OF GOLD. A new orange-flesh variety ideal as a shipping melon and of very finest quality. Vigorous vine, blight resistant, very productive. The best melon on the market.

Pkt., 15c; 1 oz., 45c; ¼ lb., \$1.25

LETTUCE

DANVERS HALF-LONG. The leading main crop, 6½ to 7 inches long with blunt end. Bright orange, tender, crisp, high quality and flavor.

Pkt., 15c; ½ oz., 35c; 1 oz., 65c

PEAS

BLACK-SEEDED SIMPSON. Earliest curled type, leaves light green, tender and crisp, of excellent flavor and quality.

Pkt., 10c; 1 oz., 35c

PEAS

LITTLE MARVEL PEAS. The standard of high quality and productiveness. Unsurpassed by any other pea in its class. Vine grows 18 inches tall with 3-inch pods, plump, filled with 7 to 8 peas of green, tender, sweet, fine flavor.

Pkt., 15c; ½ lb., 35c; 1 lb., 65c

RADISH

SCARLET BALL. A rich scarlet globe with spicy, tender crisp flesh. Stands long without becoming pithy.

Pkt., 10c; 1 oz., 25c

WHITE ICICLE. One of the best summer radishes. Pure white, tender and of delightful pungent taste.

Pkt., 10c; 1 oz., 25c

SWEET CORN

GOLDEN CROSS BANTAM. The best main crop sweet corn. Stalks 6 feet tall, very uniform, heavy foliage; generally two or more ears per stalk. Fine for quick freezing storage. Ears 8 inches long, 10 to 14 rowed, filled to tip. Attractive, yellow, tender kernels of excellent flavor and quality.

Pkt., 15c; ½ lb., 30c; 1 lb., 50c

STOWELL'S EVERGREEN. The favorite white sweet corn; ears 8 to 9 inches long. Tender, sweet, of excellent quality.

Pkt., 15c; ½ lb., 25c; 1 lb., 45c

TURNIP

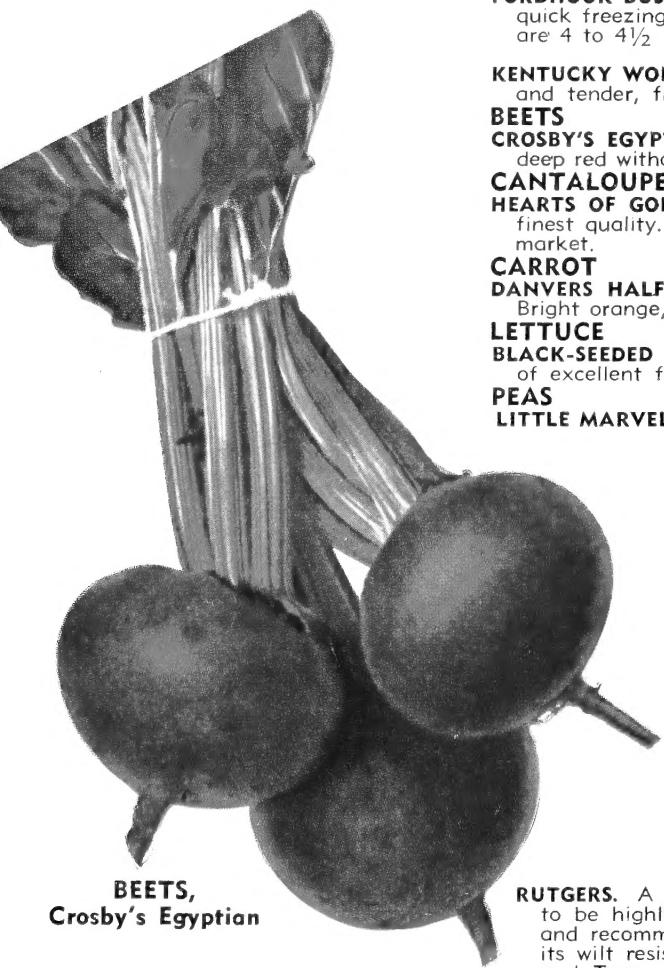

PURPLE TOP WHITE GLOBE IDAHO. The leading turnip. Globe 4 to 5 inches, flesh white, fine textured, tender and sweet.

Pkt., 10c; oz., 20c

TOMATO

RUTGERS. A recent introduction of the New Jersey Experiment Station; it is to be highly recommended for market, canning, and for juice. Developed and recommended for its uniform deep red coloring of flesh and skin, and its wilt resistance. Has become popular as a green wrap shipper in Florida and Texas. Vines: strong, compact vine growth, widely adapted, protects fruit well, very prolific. Fruit: bright deep scarlet color ripening from inside out, globe shaped, fleshy, firm and of excellent quality.

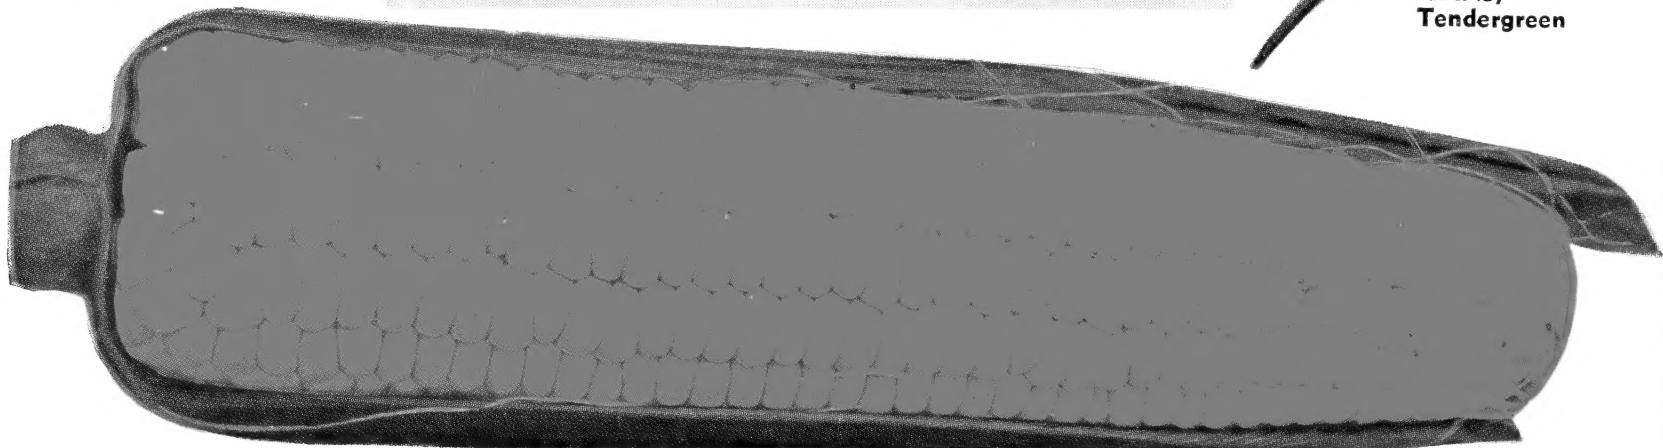

Pkt., 15c; ½ oz., 50c; oz., 85c

BEETS,
Crosby's Egyptian
